BIBLIOGRAPHY OF THE HISTORY OF AUSTRALIAN NATIONAL TOPOGRAPHIC MAPPING AGENCIES

By

DOROTHY F. PRESCOTT

Introduction

This essay includes an explanation of the political background underlying Australia's mapping and surveying arrangements which is pertinent to understanding how to conduct a bibliographical search.

The continent of Australia was settled by the British in 1788 when they founded the colony of New South Wales. Before 1901 the British colonies of New South Wales, Tasmania, Western Australia, South Australia, Victoria, and Queensland existed as separate colonies, each with their own government. In 1901 the Commonwealth of Australia was created by mutual consent of the colonies and Britain. A history of Australian national topographic mapping bodies therefore includes information relating to both the states and commonwealth mapping bodies.

Mapping undertaken during the early nineteenth century was basically focussed on surveys for land grants, roads, civil projects, town sites, ports and coastal surveys. Topographic mapping was low on the list of priorities. The first attempts at topographic mapping were carried out by Thomas Mitchell, Surveyor General of New South Wales in 1834 but the same story of pressures of land settlement occurs for all the states. Essentially then topographic mapping by government is largely the story of the twentieth century.

Scope

This bibliography's core focus is on twentieth century events following unification of the colonies in 1901 into one nation, Australia. The end point is related to the cessation of hard copy map printing and the appearance of digital technology permitting the storage of technical map data in data banks accessible by computer. In subject content there is a blurring of surveying into mapping as the early history of mapping is related to the technical problems facing surveyors in establishing ground control. The trigonometrical survey of New South Wales is used as an example. To this extent the bibliography is selective and readers should seek parallels in searching for literature concerning the other states of Australia. In terms of geographical coverage references have been included to the mapping of both Papua New Guinea and the Australian Antarctic Territories which were carried out by Australian national topographic mapping agencies. Biographical information has not been included, readers are referred to Coulthard-Clarks's *Australia's Military Mapmakers Lines' Australia on paper*, Lovejoy's *Mapmakers of Fortuna : the history of the Army Survey Regiment* and McCarthy's *Mapmakers of Australia*.

The Literature

There is a dearth of writing on the topographic mapping of Australia. Four titles stand out and these are by J. D. Lines, C. D. Coulthard-Clark, B. T. Tyson and Valerie Lovejoy. The most comprehensive of these is Lines' *Australia on paper*, a substantial work, which ranks with Skelton's *History of the Ordnance Survey* and Andrews' *Paper landscape*, to mention only two texts on national mapping. Coulthard-Clark writes on the Royal Australian Survey Corps (RASvC) in his history *Australia's military map-makers : the Royal Australian Survey Corps 1915-96*, the emphasis in this text being mainly on the politics, personalities and events. However these two books complement each other very well. A recently released work which was published as this bibliography was completed is Valerie Lovejoy's *Mapmakers of Fortuna*, a history of the Army Survey Regiment, the largest unit within the Royal Australian Survey Corps, from its origins in 1932 to its demise in 1996. This history examines the role of the Regiment, its place in the Army and its technological achievements and changing character over this period, within 'the broader context of social, economic and technological change'. Trevor Tyson's work *The topographical map series of Australia* focusses on the maps themselves with many large map extracts of the different series. This title is particularly useful alongside Lines', Coulthard-Clark's and Lovejoy's texts. It should be pointed out, that Tyson's work appeared in a limited edition of 120 copies and is therefore extremely difficult to locate but the other source for actual map extracts may be found in the *Contemporary Cartography* section of the journal *Cartography*.

The most important report material is to be found in the *National Mapping Council of Australia's* publications and those of its sub-committees which cover the period 1948-1986. There is much material here covering a long time span which encompasses the golden period of national topographic mapping.

Selected publications of the Division of National Mapping, the national civilian map maker, have been included in this bibliography in lieu of a formal history although Lines' work fills much of this need. These additional entries for works issued by the Division of National Mapping give some idea of the scope of a national agency's functions over and above that of performing topographic survey although not all functions are represented. Likewise for the Royal Australian Survey Corps, also a national map maker, much of its work has been related to military activities overseas in times of war as well as in peaceful times to neighbouring countries in the form of development assistance. The Royal Australian Survey Corps annual reports and details of Army map catalogues are included as a guide to their map output. There are also references to many articles by military survey personnel.

Professional journal literature devoted to the subject occurs in the *Australian Surveyor*, (quarterly) from 1928 onwards and prior to that date in the *Surveyor*, for the period July 1888 to 1927, and in *Cartography*, (half-yearly) from 1952 onwards.

Before this date of 1928 state records and journals should be referred to for the early history of topographic mapping. Most of the literature of this period is more biased towards surveying and the problems of establishing survey control which must underlie topographic mapping. State records do have accounts of early attempts within state boundaries at establishing a trigonometrical network and the annual reports of the New South Wales Lands Department are an example of what might be found if state records are consulted. However this bibliography has concentrated on post 1900 developments and users seeking material before this date should start with reports of the Lands Departments in each state.

Professional literature in the form of conference papers fills a large part of this bibliography. Among the earliest are the Papers from the congresses of the Australian and New Zealand

Association for the Advancement of Science, which followed on from the Australasian Association of the same name and prior to that the British Association.

Another source was papers of the Conference of Commonwealth Survey Officers organised by the British Ministry of Overseas Development where Commonwealth countries reported on developments in their respective countries. Similarly the United Nations Regional Cartographic Conferences for Asia and the Far East provided useful material.

With respect to Australian developments it is necessary to know that the Institution of Surveyors Australia (ISA) was founded in 1952, this was through the amalgamation of all the previously independent state Institutes of Surveyors some of which had been in existence since the middle 1800s. ISA Congress papers began to appear from 1954 onwards. The early ones did not appear as Proceedings and appear to have been lost as only a very few ever appeared in a form which guaranteed preservation. Some of these have been preserved in *The Australian Surveyor*. Thus ISA papers are only generally available from 1969 onwards when the papers were bound for the first time and appeared as Proceedings.

The Australian Institute of Cartographers conferences started in 1974 and were held every second year. Occasional joint conferences also occurred between surveyors and cartographers. In 1995 the Australian Institute of Cartographers changed its name to the Mapping Sciences Institute of Australia and papers published after that date at its conferences will be found under the later name.

The Globe, journal of the Australian Map Circle also contains papers delivered by personnel from both national map makers at AMC annual conferences. These date from 1973 onwards and issues appear twice a year.

Acknowledgements

Libraries which have been fruitful sources for locating this material have been the National Library of Australia in Canberra, the State Library of Victoria and the Engineering Branch Library of the University of Melbourne Library. My thanks go to staff at those libraries for their assistance in locating and obtaining copies of early material.

My particular thanks must be to Maura O'Connor and Roxanne Missingham of the National Library, Joanna McLachlan, Land and Information Librarian at the Land Information Centre, Bathurst, in the New South Wales Department of Land and Property Information (later Department of Information Technology & Management) and John Cain and David Jones at the University of Melbourne Map Library, without whose patience and assistance this task would have taken far longer.

I would also like to acknowledge assistance given by personnel of the Australian Surveying and Land Information Group through Peter Holland, General Manager with regard to the work of its predecessor the Division of National Mapping. Likewise my thanks are extended to Colonel Doug Stedman, Director of Strategic Military Geographic Information and Roger Rees, Map Research Officer DSMGI, Department of Defence for help with RASvyC reports.

- Australia photomaps / Division of National Mapping. – Queanbeyan, N.S.W. : The Division, 1980. – [1p.] : ill., 2 col. maps ; 30 cm. – Leaflet no. 10. -- Leaflet updated as work progresses.
- Australian cartographic activities as at 31 Dec. 1966 / paper presented by Australia. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 71-74* : 4 col. maps. – Comprehensive account of all types of mapping carried out, includes topographic mapping and aerial photography, national geodetic surveys and levelling surveys on pages 71-73. – Annexure 1. Australian national geodetic survey as at 31st Dec. 1966. – Annexure 2. Australian national levelling survey as at 31st Dec. 1966. – Annexure 3. Australia and New Guinea aerial photography as at 31st Dec. 1966. – Annexure 4. Australia and New Guinea topographic map coverage as at 31st Dec. 1966. – Covers 1:63 360 and larger (contoured) and planimetric compiled and published at 1:63 360 – 1:253 440. – E/CONF.52/L.104.
- The Australian Landsat Station / Division of National Mapping, Department of National Resources. -- Canberra, A. C. T. : Australian Landsat Station, [1985?]. – ii, 18 p. : col. ill. , col. maps ; 30 cm. – Information brochure on the facility, the satellite imagery received and its applications.
- Australian standard format and codes for the exchange of digital mapping and charting data on magnetic tape. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington), v. 2, 253-254.* – Abstract only. – Draft standard issued Dec. 1979. – E/CONF.72/L.35.
- The bathymetric mapping of the Australian continental shelf / Division of National Mapping, Department of Minerals and Energy. – *In Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 478-480* : 1 map. -- E/CONF.62/L.114.
- Cartographic activities in Australia / Division of National Mapping, Department of Minerals and Energy. – *In Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 3-21* : 14 maps. – Report for the Commonwealth and state mapping bodies. – Pages 3-10 concern topographic mapping. – E/CONF.62/L.35 and ADD.1
- Cartographic activities in Australia, 1987-1990. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (11th : 1991 : Bangkok), v. 2, 3-7.* – Reports on activities of Australian Surveying and Land Information Group, the Royal Australian Survey Corps, the Australian Land Information Council, the Intergovernmental Advisory Committee on Surveying and Mapping and the Australian Liaison Committee for Remote Sensing by Satellite. – E/CONF.83/INF.7.
- Developments in airborne profiling : laser terrain profiling equipment / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (6th : 1970 : Tehran), v. 2, 275-282* : 6 figs. – The Division of National Mapping sponsored development of laser terrain profile specifications for mapping purposes through the scientific research facilities of the Weapons Research Establishment of the Department of Supply. Describes the profiler and aircraft used, principles of operation and techniques employed and modifications made. –E/CONF. 47/ L.64.

- Digital topographic mapping in the Division of National Mapping. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok)*, v. 2, 443-448 : 2 figs. – In 1977 the DNM decided to convert to digital techniques. The objective was to decrease the cost of fair drawing and reduce production time. An AUTOMAP from Systemhouse Ltd.(Canada) was installed in 1981. – E/CONF.75/L.3.
- East and south-central Australia 1:100 000 topographic maps / Division of National Mapping. – Belconnen, A.C.T. : The Division, 1985. – [1p.] : 3 col. maps ; 30 cm. – Leaflet no.2. -- Supersedes in part Maps of Australia and Australian territories. -- Leaflet updated as work progresses.
- Four colour reproduction. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington)*, v. 2, 250. – Abstract only. – Possible due to improved production techniques without losing the quality of the information or the aesthetic appearance. To be used for the National Topographic Map Series at 1:100 000 scale. – E/CONF.72/L.30.
- Geodesy in the Division of National Mapping. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington)*, v. 2, 111-113. – Abstract only. – Geodetic field surveys by Doppler satellite observations. The adjustment of new horizontal and vertical control computed by the Division using VARYCORD and CHAOS. – 5 refs. – E/CONF.72/L.40.
- Geodetic activities in Australia to 1973 / Division of National Mapping, Department of Minerals and Energy. – *In Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo)*, 159-164 : 3 maps. – E/CONF.62/L.38.
- Geodetic surveying in Australia / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (6th : 1970 : Tehran)*, v. 2, 145-147 : 2 figs. – Deals with high precision traversing, accuracy of astronomical observations, determination of the geoid, Australian levelling adjustment, 'deep' bench marking, third order levelling procedures and electronic computing. – E/CONF.57/L.49.
- A geoid for Southeast Asia and the Pacific. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok)*, v. 2, 149-152. – 3 refs. – Copies of JSA82 geoid map is plotted with 5 metre contours. Copies available from Division of National Mapping. – E/CONF.75/L.7.
- High altitude wide angle photography / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington)*, v. 2, 110-111. – Abstract only. – The potential of wide angle high altitude photography flown along same flight lines as original lower level superwide angle photography enables retention and utilisation of much of the established control. Equipment listed. – E/CONF.72/L.36.
- Landsat catalogue [microform] / Division of National Mapping. – Queanbeyan, N.S.W. : The Division, 1979. – Distinctive title: Catalogue of Landsat imagery of Australia. Former title: EROS Data Center. [ERTS-1 satellite imagery negatives of Australia]
- Landsat in Australia. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington)*, v. 2. – Used since 1972. Gives dates of establishment of receiving centre, processing facilities and products. – Abstract only. – E/CONF.72/L.38.
- Map accuracy. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington)*, v. 2, 251-252. – Abstract only. – Describes the procedure for evaluation of 1:100 000 accuracy. – E/CONF.72/L.31.
- Map accuracy surveys by the Division of National Mapping. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok)*, v. 2, 551-553. – Further developing the system. – E/CONF.75/L.5.
- Map catalogue: 1:100,000 series, 1:250,000 series / Division of National Mapping, Department of National Development. – Canberra, A.C.T. : Division of National Mapping, 1968. – v. (various pagings) : maps ; 30 cm. – Processed. NM/MISC/67/218.
- Map completion for 1:100 000 scale topographic series / Division of National Mapping, Department of Minerals and Energy. – *In Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo)*, 259. – E/CONF.62/L.43.
- Maps of Australia and Australian territories / Division of National Mapping, Department of National Development. – 8th ed. -- Canberra, A.C.T. : Division of National Mapping, 1978. – v. [loose leaf] : fold. map ; 30 cm. – NM/MISC/67/218.
- The Natmap laser-ranging system. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok)*, v. 2, 152-154. – System

- is capable of obtaining ranges to satellites with 3 cm. precision. System description and applications provided. – E/CONF.75/L.9.
- The national geodetic data base Australia. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok), v. 2, 147-149.* – Brief description. – E/CONF.75/L.37.
- National Mapping newsletter. – Canberra City, [A.C.T.] : Dept. of National Development, Division of National Mapping, 1967-69. – Irregular. – No. 1 (July 1967) -no. 3 (Sept. 1969). – General newsletter to inform people about what is happening in the National Mapping Council of Australia and in its Technical Sub-Committee.
- National report on photogrammetry in Australia : submitted to the Ninth International Congress of Photogrammetry, London, 5th –22nd September, 1960 / Division of National Mapping. – Canberra, A.C.T. : The Division, [1960]. – 68p. : ill. (some col.), maps ; 30 cm. – Addendum sheet included. “NMP / 60/ 098”. Includes bibliographies.
- NATMAP / Division of National Mapping. – Canberra, A.C.T. : Division of National Mapping, Department of Resources and Energy, 1986. – 16p. : ill. ; 30 cm.
- Notes on airborne control surveys, 1970-1973 / Division of National Mapping, Department of Minerals and Energy. – *In Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 164-169 : 2 maps.* – E/CONF.62/L.38.
- Notes on the application of satellite imagery to topographic, bathymetric and land use mapping in Australia / collated by the Division of National Mapping, Canberra -- *In Cartography (Canberra: Australian Institute of Cartographers), July 1976, 9, 4, 217-222 : 2 figs., 2 tables.* – MSS imagery from Landsat 1 being assessed for usefulness at the 1: 250 000 scale.
- Notes on the use of the geodimeter and the tellurometer in Australia / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (2nd : 1958 : Tokyo), v. 2, 90-91.* – Explains techniques to eliminate error in the geodimeter. Discusses factors relevant to measurement of long lines with the tellurometer. – E/CONF.25/L.77.
- Papua-New Guinea : pictorial index of activities / prepared by Director of National Mapping, Department of National Development. – Canberra, A.C.T. : Department of National Development, 1959-65. – maps ; 33 x 47 cm. -- Annual. – Title varies: Pictorial index of Papua New Guinea. Pictorial index of air photography and mapping. Pictorial index of activities. – Chiefly indexes of mapping.
- Pictorial index of air photography and mapping / prepared by Director of National Mapping, Department of National Development. – Canberra, [A.C.T.] : Division of National Mapping, 1959 –1966. – 10 col. maps ; 34 x 39 cm. – Annual. – At head of title: National Mapping Council of Australia. Also appears under the title: Pictorial index of activities. – Chiefly map indexes showing mapping, surveying and aerial photogrammetry carried out during the year.
- Reader's Digest atlas of Australia / produced in conjunction with the Division of National Mapping, Department of National Resources, who prepared the maps ; edited and designed by Readers Digest Services Pty. – 1st ed. – Sydney, N.S.W. : Readers Digest Services, 1978. – 287 p. : col. ill., 143 col. maps ; 40 cm. – Other title: Atlas of Australia. -- Scale of most maps 1:1 000 000. Includes bibliogr., references and index.
- Report on activities during 1977-1979 / Division of National Mapping for the National Mapping Council. -- *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : Wellington : 1980), v. 2, 1-7.* – Annex. Addresses of members of NMC. – General coverage report on geodesy, photography and topographic mapping during 1977-1979, each state has a section. – E/CONF.72/L.39.
- Report on activities by Australia, 1980-1982. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok), v. 2, 2-14.* -- Annex. P.13-14 of addresses. – P.1-6 cover geodetic survey, aerial photography, satellite imagery, computer assisted mapping and topographic mapping. – E/CONF.75/L.37.
- Report on cartographic activities in Australia / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (3rd : 1961 : Bangkok), v. 2, 24-25 : 6 maps.* – Annex 1. Australian national geodetic survey as at 1 Sept. 1961. – Annex 2. Air photography coverage. Australia and Papua New Guinea (1:50 000 scale). – Annex 3. Map coverage as at 1 Sept. 1961. Shows 1:1million series, WAC series, 1:250 000 production in 2 phases the first being planimetric using black contours with brown hill shading, stage 2 being fully contoured coloured maps. For PNG scale is 1:50 000. – E/CONF.36/L.59.
- Report on cartographic activities in Australia as at 1 September 1964 / anon. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (4th : 1964 : Manila), v. 2, 25-26 : 6 col. Maps.* – Progress report of work carried out under the guidance

- of the National Mapping Council. Chief contributors Department of National Development , Department of the Army, state Surveyors- General, Commonwealth Scientific and Industrial Research Organisation, Department of the Interior, Department of the Navy, state Mines and Forests departments. – Information on geodetic survey, aerial photography and map coverage. – Annexure 1. National geodetic survey as at June 1964. – Annexure 2. Australia and New Guinea. Air photography coverage as at June 1964. – Annexure 3. Australia and New Guinea. Map coverage as at June 1964. – E/CONF.50/L.70.
- Report on progress in surveying and mapping, 1983-1986. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (11th : 1987 : Bangkok), v. 2, 3. – Covers aerial photography, satellite imagery and topographic mapping. – E/CONF.87/L.74.
- Report on work completed during the period 1945-1970 / prepared by the Director of National Mapping, Department of National Development. – Canberra, A.C.T. : [1971]. – 2p., [70] leaves : chiefly col. maps ; 30 cm. – Includes “Australia. Mapping, 1945-1970. Papua New Guinea. Mapping, 1945-1970. Antarctic. Mapping, 1945-1970. National Mapping Council of Australia. Reports.”
- see also National Mapping Council of Australia**
- Revision cycle forecast model / anon. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington), v. 2, 109-110. – Abstract only. – Computer modelling to assign a hierarchical rating for each published map. Maps are then prepared according to budget available. – E/CONF.72/L.34.
- Revision of the National Topographic Map Series / anon. -- *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : Wellington : 1980), v. 2, 108. – Abstract only. – E/CONF.72/L.28.
- A simplified method of relief drawing to supplement contours / presented by Australia. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (6th : 1970 : Tehran), v. 2, 272-274 : 3 figs. – Describes techniques used in Division of National Mapping production of 1:100 000 scale series, difficulties of training staff in use of the airbrush in photo-interpretation require a simpler technique. Describes rigorous procedures to be observed – takes three weeks training. – E/CONF.57/ L.47.
- Some aspects of photogrammetry / Division of National Mapping, Department of Minerals and Energy. – *In* Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 221-225 : 2 figs. – Deals with two aspects of computerised photogrammetry used in the Division of National Mapping. -- E/CONF.62/L.39.
- Some aspects of small scale mapping in the Division of National Mapping, 1970-1973 / Division of National Mapping, Department of Minerals and Energy. – *In* Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 360-364. – Report on controlling quality during printing, catering for the map user, and maintaining accuracy of the base mapping for aeronautical charts . – E/CONF.62/L.80.
- Specifications for topographic map series. Vol. 1. Australia 1:100 000 scale [produced by the Division of National Mapping under the direction of the Minister for National Development and by the Royal Australian Survey Corps under the direction of the Chief of General Staff, Australian Military Forces] / Division of National Mapping. – [Canberra, A.C.T. : The Division, 196-?]. – v. [loose leaf] : ill., [chiefly col.] maps ; 32 cm. – Folded maps. Includes bibliogr.

Canberra, [A.C.T.] : AUSLIG, 1999. -- 1 fold. sheet : ill., maps ; 30 cm. -- Issued by the Commonwealth Spatial Data Committee and Australia New Zealand Land Information Council. -- Note: A vital strategic asset for government , private industry, corporation and all Australians.
- Australian Surveying and Land Information Group corporate plan / Australian Surveying and Land Information Group. -- [Canberra, A.C.T.] : Published and produced for AUSLIG by the Public Relations Unit, Department of Administrative Services, [1989]. -- 12 p. : ill. ; 30 cm.
- AUSLIG topographic data and map specifications for geodata TOPO-250K V@ vector product, geodata TOPO-100K V1 vector product & NTMS series 1:250 000 & 1:100 000 scale topographic map products. -- Version 3.3. -- [Canberra, A.C.T.] : Australian Surveying and Land Information

- Group, Department of Industry, Science and Tourism, 1998. – v. (various pagings) : ill., maps ; 32 cm. – Deals with digital standards for topographic map series and with standards for Geographic information systems.
- Digital data product catalogue AUSLIG / Australian Surveying and Land Information Group, Department of Arts and Administrative Services, [n.d.] – 25 p. : col. figs ; 30 cm. – Includes geodata, map data and information on thematic data. – Updated regularly.
- Direct printing of digital imagery. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (11th : 1991 : Bangkok), v. 2, 219-220 : 2 refs. – The SIMAP process (ie, satellite image mapping). – E/CONF.83/INF.9.
- Directions newsletter / AUSLIG, Australia's National Mapping Agency. – Belconnen, A.C.T. : AUSLIG, 2000- . – v. : col. ill. ; 30 cm. – Former title: AUSLIG directions. -- ISSN 1037-440X.
- Mapdata : topographic and digital elevation model (DEM) data index, July 1993 / Australian Surveying and Land Information Group. – Belconnen, A. C. T. : Australian Surveying and Land Information Group, 1993. – 1 fold. sheet. – Contains index map showing availability of digital topographic map data at 1:100 000 and 1:250 000 scales. – On verso availability shown on index map for digital elevation model (DEM) data.
- Map index topographic maps available from Auslig / Australian Surveying and Land Information Group. – Revised 1996. – Belconnen, A.C.T. : AUSLIG, 1996. – 1 fold. sheet. – On verso: Alphabetical list of map sheets.
- Map product catalogue AUSLIG / Australian Surveying and Land Information Group. – [Belconnen, A.C.T.] : AUSLIG, [199-?]. – 32 p. : col. ill., maps ; 30 cm. – Folded map in pocket.
- 1:100 000 map revision program 1999 work package areas / Australian Surveying and Land Information Group. – [Canberra, A.C.T.] : AUSLIG, 1999. – 1 map on 2 sheets : ill. ; 38 x 50 cm. – West Australia. East Australia. 3 March 1999.
- Qld., NSW & Vic. coast and state border files, baseline files [computer file] / Belconnen, ACT : Australian Surveying & Land Information Group, 1992. – 1 computer tape reel : 1600 bpi.
- Topographic maps from AUSMAP / Australian Surveying and Land Information Group, Department of Administrative Services. – Canberra, A. C. T. : AUSLIG, 1990. – 1 fold. sheet : col. map. – Index map showing maps available at 1:1 000 000, 1:250 000 and 1:100 000 scale series. – On verso: Alphabetical list of sheet names.

Baker, Graham

Australian Surveying and Land Information Group (AUSLIG) Department of Administrative Services / Graham Baker. -- *In* Cartography (Canberra: Australian Institute of Cartographers), June 1995, 24, 1 : Supplement (July 1995) 22-25. – 4 p.

Baker, Graham and Irwin, Bob

A geographical information framework for managing our nation / Graham Baker and Bob Irwin. – *In* Technical Papers, Mapping Sciences Conference (1996 : Canberra), 116-131. – Refs. 5. – Geographical information regarded as an infrastructure. The National Spatial Data Infrastructure is the model promoted by the Australian and New Zealand Land Information Council (ANZLIC) and the Intergovernmental Committee on Surveying and Mapping (ICSM)

Baker, W. C. and Mathews, H. B.

Mapping / prepared by W. C. Baker and read by H.B. Mathews, Surveyor-General of New South Wales. – *In* Papers Australasian & New Zealand Association for the Advancement of Science Congress (53rd ? : Aug. 1932 : ? :), 13 p. ; 33 cm. – Brief history of mapping New South Wales from 1813, with discussion of map projections used, NSW Dept. of Lands map production and survey operations in 1932. Also discusses production of the Australian sheets of the International Map of the World by the Dept. of Works, Lands and Survey Section, Canberra and topographic survey maps produced by the Australian Army.

Barrie, J. K.

The surveying profession in Australia : a personal interpretation of its historical development, current and future trends / J. K. Barrie. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1976, 28, 1, 6-56. – Bibliogr. p. 52-56. Has a section on standard mapping in Australia, p. 32-33.

Bayliss, E. P. and Cumpston, J. S.

Handbook and index : to accompany a map of Antarctica, produced by the Department of the Interior, 1939 / by E. P. Bayliss and J. S. Cumpston. – [Canberra, A.C.T.] : Commonwealth Govt. Printer, [1940?]. – 90 p., [1] leaf : map] ; 25 cm. – Bibliogr. : p. 78-80. -- At head of title: Commonwealth of Australia. Department of External Affairs.

Bayliss, R. V.

The linear standards of the Department of Lands, New South Wales / by R. V. Bayliss. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1957, 16, 5, 312-318 : 1 fig. – Description of equipment in use.

The North Kimberley survey and mapping expedition, 1954 -a review / by R. V. Bayliss. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1957, 16, 7, 452-459 : 1 ill., 1 map – Survey undertaken to assess the potential of the region for pastoral development The information obtained has been plotted on the inch to a mile mosaics held in the Lands Department, Perth.

see also Morgan, J. F.

Beaver, P.

The map of the nineteen counties and the early trigonometrical surveys of N.S.W. / P. Beaver. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Dec. 1952, 14, 3&4, 88-97.

Bell, K. C.

The Australian Land Information Council: National co-ordination of land information management through a peak intergovernmental council / K. C. Bell, Australian Surveying and Land Information Group. – *In* Survey Review (London, UK.: for Ministry of Overseas Development), 1991, 31, 240, 71-80. – 7 refs. – reviews background to establishment of the A.L.I.C. and examines national strategy.

Bell, Keith C. and Hobson, David

Transcending the land management borderline : the Australian Surveying and Land Information Group working in the national interest / by Keith Bell and David Hobson, Australian Surveying and Land Information Group. – *In* Technical Papers, Australian Survey Congress (33rd : 1991: Canberra), Paper 10, 1-9. – Refs. 5. – Examines AUSLIG's role in co-ordinating land information management and its co-operation with other government and private sector agencies for the Australian national interest.

Birtles, Terry

Review of J. D. Lines 'Australia on Paper: the story of Australian mapping' / Terry Birtles. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), March 1993, 38, 1, 66-67.

See also Australia. Army. Royal Australian Survey Corps. History Committee

Blain, A. M.

Mapping Australia / A. M. Blain. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1938, 7, 1, 146-152. –Excerpt from a speech delivered in the House of Representatives in support of the Loan Bill. Summarises the previous conferences and attempts to persuade the government of the importance of mapping the continent. Emphasises the need for a topographic survey.

Böhme, Rolf

Inventory of world topographic mapping / compiled by Rolf Böhme ; English language editor, Roger Anson. – London ; New York : Published on behalf of the International Cartographic Association by Elsevier Applied Science Publishers, 1989-1993. – 3 v. – ill. ; 31 cm. – Includes bibliographical references. – Volume 1 Western Europe, North America and Australasia. – ISBN 0851663576 (v.1)

Inventory of world topographic mapping / Rolf Böhme. – *In* Technical Papers, International Cartographic Association Conference (12th: Aug. 1984 : Perth, Australia), 2, 375-390 : 4 figs. -- 6 refs. – Pages 375-381 deal with Australia and include map index to 1:250 000 series (1979)

Bomford, A. G.

Adjustment of horizontal control / A.G. Bomford, Director of National Mapping, Department of National Development. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 111-114. – E/CONF. 52/L.30.

The Australian Geodetic Datum and the Australian Height Datum: an Australia-wide reference system / A.G. Bomford. -- *In* Papers, Australian and New Zealand Association for the Advancement of Science Congress (43rd : 1971 : Brisbane), Section 21, Geographical Sciences G 17, 5 pages : 8 maps. – Since March 1970 Australia has an homogenous levelling network and Australian Geodetic Datum.

- Automated cartography in the Division of National Mapping / A. G. Bomford, Assistant Director, Division of National Mapping. – *In* Cartography (Canberra: Australian Institute of Cartographers), June 1971, 7, 3, 119-125. – Describes the problem in digitising and generalising data prior to it being drawn automatically by flat bed plotters. Reports on how the Division of National Mapping is acquiring data for future automation.
- The geodetic adjustment of Australia progress to June 1963 / by A. G. Bomford. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1964, 20, 97-103 : 1 fig. – Paper presented to the Conference of Commonwealth Survey Officers, July 1963.
- The geodetic adjustment of Australia, 1963-1966 / A. G. Bomford. – *In* Survey Review (Tolworth, Surrey: Directorate of Overseas Surveys), 1967, 19, 144, 52-71 : 3 tables, 7 figs. – Bibliogr.: p.71.
- Geodetic models of Australia / A. G. Bomford. – Canberra, [A. C. T.] : Department of Minerals and Energy, Division of National Mapping, 1973. – 12, [6] p., 5 leaves : ill., tables, 4 fold. maps ; 29 cm. – (Technical report / Australia. Division of National Mapping) ; 17. – ISBN 064 2943753.
- National report for Australia, 1968-1970 / A. G. Bomford. – Canberra, [A. C. T.] : Division of National Mapping, Department of National Development, 1971. – 10 p. : 4 fold. maps ; 30 cm. – Presented to the 13th Congress of the International Federation of Surveyors, Wiesbaden, Germany, 1971. – Refs. – ISBN 0642950806.
- National report for Australia, 1971-1973 / A. G. Bomford. – Canberra, [A. C. T.] : [Division of National Mapping, Department of National Development,] 1974. – 10 p. : 4 col. fold. maps ; 30 cm. – ISBN 0959726403.
- The role of a national mapping organisation / A.G. Bomford, Director of National Mapping, Canberra, Australia. – *In* Survey Review (Tolworth, Surrey: Great Britain. Directorate of Overseas Surveys), 1980, XXV, 195, 195-214. – List of 85 statements, with some specific references to the Division of National Mapping, Australia. – Also appears in Report of Proceedings, Conference of Commonwealth Surveyors (1979: Cambridge), Part II, Paper M1, 16 p. – 11 refs.
- Bomford, A.G. and Thomson, W. A.**
Revision of topographic maps / A. G. Bomford and W.A. Thomson. – *In* [Technical Papers], Australian Cartographic Conference (3rd : Oct 1978 : Brisbane), 55-65. – The paper discusses the problems of changing from the production of new maps to the process of revision of existing maps. The 1:100 000 topographic series is used to illustrate the problems.
- Bridge, R. G.**
Digital mapping – a means to an end / R. G. Bridge. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1977, 7, 24-33. – Bibliog.: p 31-33. – “Brief description of one of the first fully integrated computer assisted cartographic systems in the world.”—System used by the RASvyc.
- Bridges, William Throsby see Lines, John D.**
- Brown, A. C. and Mitchell, J. E.**
Victoria's maps and plans system : the evolutionary progress / presented to the 7th Annual Conference of the AMCC by A. C. Brown, Deputy Surveyor-General of Victoria. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1979, 11, 22-37. – The history of Victorian surveying and mapping.
- Brown, R. L.**
Report to the Minister for the Department of the Army, Commonwealth of Australia, December 1951 / R. L. Brown, Director General, Ordnance Survey. – Only very limited distribution within government. Not seen.
- Bryant, F. L.**
Digital data acquisition, manipulation and output for topographic cartography / F. L. Bryant, Royal Australian Survey Corps. – *In* [Technical Papers], Australian Cartographic Conference (2nd : 1976 : Adelaide), Section 6, 1-26. – The paper discusses the AUTOMAP system in use at the Army Survey Regiment, Bendigo, Victoria.
- Photogrammetric planning and adjustment with reference to the 1:100 000 mapping / by F. L. Bryant. – *In* Papers to be presented, Australian Survey Congress (12th : 1969 : Melbourne), 77-83 : 2 fig. – Describes the Royal Australian Survey Corps field control requirements and photogrammetric adjustment and computational procedures undertaken for block adjustment.
- Bullen, F. T. and Durston, P. W.**
Landsat applications by the Division of National Mapping / F.T. Bullen and P. W. Durston. -- *In* Proceedings, Landsat 81, Australasian Remote Sensing Conference (2nd : 1981 : Canberra), Section 2, 2.3.1-2.3.3. – 9 refs. The Division of National Mapping uses Landsat imagery for thematic mapping but also has recently used it for more inaccessible regions of Antarctica and for detecting and mapping previously uncharted shoals in the Coral Sea. – ISSN 0725 0088.

Byrne, P. M. and Honey, F. R.

Air survey and satellite imagery – tools for shallow water bathymetry / P. M. Byrne and F. R. Honey. – *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1977, 28, 7, 420-424. – Paper given at the 20th Australian Survey Congress, 1977, Darwin.

Campbell, W. D.

A sketch of the progress of the Trigonometrical Survey in New South Wales / W. D. Campbell. – *In The Surveyor* (Sydney: The Survey Club), Mar. 7, 1894, VII, 50-60 and *In April* 7, 1894, VII, 79-85.

Cardew, J. H.

Letter to the President of the Institution of Surveyors re the mapping of Australia / J. H. Cardew. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), March 1939, 7, 5, 272.

Carrol, D. and Morse, M. P.

Contemporary Cartography. A national digital elevation model for resource and environment management / D. Carrol and M. P. Morse. -- *In Cartography* (Canberra: Mapping Sciences Institute of Australia), Dec. 1996, 25, 2, 43-49 : 1 fig. – 7 refs. Describes the Australian Surveying and Land Information Group's GEODATA 9 SECOND DEM and examines some applications which require detailed elevation data. The paper was originally presented at MAPPING SCIENCES '96, Canberra, Sept. 1996.

Central Mapping Authority of New South Wales

Catalogue of New South Wales maps – Bathurst, N.S.W. : The Authority, 1973-1988. – 1col. fold. broadsheet : maps ; 29 cm. – Biannual until 1983, June and December, then Annual from July 1988. -- Contains index maps.

see also Contemporary Cartography, New South Wales. Land Information Centre

Catalogue of New South Wales digital map data, June 1984 / produced by the Central Mapping Authority. – Bathurst, N.S.W. : Central Mapping Authority, 1984. – 1 col. fold. broadsheet : maps ; 29 cm. – Contains map indexes to precise levelling, geodetic, medium scale digital map data both metropolitan and non metropolitan.

The Central Mapping Authority of New South Wales / Central Mapping Authority. -- Bathurst, N.S.W. : The Authority, 1976. –16 p. ; 21 cm. –The history and functions of the CMA.

The Central Mapping Authority of New South Wales. – Rev.ed. – Bathurst, N.S.W. : The Authority, 1980. – 12 p. ; 21 cm. – Revised edition of the history and functions of the CMA.

see also Cheeseman, A. J., Rohner, P. and Urban, Frank

The making of a C.M.A. map / Central Mapping Authority. – Bathurst, N.S.W. : The Authority, 1984. – 1 fold. broadsheet ; 23 cm.

Map production and map revision in New South Wales / Central Mapping Authority of New South Wales, Australia. – *In Technical Papers, United Nations Regional Conference for Asia and the Far East* (10th : Bangkok), 555-558. -- Covers urban and rural orthophoto mapping. – E/CONF.75/L.36.

Maps of New South Wales – ‘Which map ...?’ / produced by the / Central Mapping Authority . – Bathurst, [N.S.W.] : / Central Mapping Authority. – 1 col. fold. broadsheet : 30 ill. (some col.) ; 30 cm. – Contains illustrations of 27 types of map, aerial photographs and triangulation charts and three indexes to coverage at 1:25 000, 1:50 000, 1:100 000 and 1:250 000 scale mapping.

New South Wales government and aerial photography and mapping services / Central Mapping Authority. – Bathurst, N.S.W. : The Authority, 1983. – 1 p. ; 30 cm.

Report of the Central Mapping Authority / [CMA]. – [Sydney : Govt. Printer], 1976-1984. – 1 v. : ill. ; 33 cm. – Later issues bear title: Annual report of the Central Mapping Authority. Some issued as Parliamentary Papers. In 1985 the Central Mapping Authority was amalgamated into the N.S.W. Department of Lands and CMA reports became part of the larger department's Report of the Department of Lands.

see also under New South Wales. Department of Lands

Service mapping brochure / Central Mapping Authority of New South Wales. – Bathurst, N.S.W. : Central Mapping Authority, 1982. – 1 fold. broadsheet : 51 figs., col. map ; 35 cm. -- Illustrates standard and derived mapping at large and medium scales, aerial photography, photogrammetry and topographic composites.

Visual index of future mapping, aerial photography and geodetic survey programmes as at ... / Central Mapping Authority of New South Wales. – Bathurst, N.S.W. : Central Mapping Authority of New South Wales. – 1col. fold. broadsheet : maps ; 29 cm. – Contains also index of topographic mapping programme. – Three issues only in 1981, 1982 and 1984.

Chappel, Keith L.

Early history of surveying in Victoria / Keith Chappel. – *In* Technical Papers, Australian Survey Congress (17th : 1974 : Melbourne), 30-46. – Bibliogr.: p. 46. -- Short section on triangulation in Victoria.

Surveying for land settlement in Victoria 1836-1960 / by Keith L. Chappel. – [Melbourne, Vic. : Office of the Surveyor General], 1996. – 166 p. -- ill., fold. maps (some col.) ; 30 cm. – Index p. 157-166. -- “Appendix 1. Survey of the Victoria – New South Wales border”, Appendix 2. Survey of the Victoria – South Australia boundary.” Touches on the Emergency Mapping Scheme of World War 2.

Cheesman, A. J.

Mapping programmes in the Central Mapping Authority of N[ew] S[outh] W[ales] / A. J. Cheesman, Central Mapping Authority of N.S.W., Bathurst. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1981, 16, 49-60. – Paper on current mapping programs and services.

Chesterman, Alfred Henry

Trigonometrical survey of New South Wales: [paper read before the Pan-Pacific Science Congress, 1923] / A. H. Chesterman. – Sydney, A. J. Kent, Govt. Printer, 1924. – 39 p. : 1 map.

Child, W.

Australian developments in the use of hovering helicopters to establish survey control / Major W. Child, Royal Australian Survey Corps. -- *In* Colloquium on Control for Mapping by Geodetic and Photogrammetric Methods, University of New South Wales (1967 : Sydney), 170-179 : 4 figs.

Reports on prototype equipment using television techniques to achieve ground control for medium to small scale maps / W. Child. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 132-136 : 4 figs.

Clark, C. T.

Emergency mapping scheme : Victorian activity / [C. T. Clark]. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1940, 8, 3, 159-160. – Report on personnel and organisations involved.

Letter on mapping Australia / C. T. Clark. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1938, 7, 3, 191-192.

Clarke, Andrew L.

A new Australian standard for spatial data transfer / Andrew L. Clarke. -- *In* Technical Papers, Australian Cartographic Conference (8th : 1990 : Darwin), 171-182. – 6 refs. – Standards Association of Australia proposal to clone US standard offers substantial benefits. The Australian community should address the implications of doing this.

Clarke, Andrew L. and Morrison, Tom

A 1:1 000 000 scale digital topographic data base of Australia / Andrew L. Clarke and Tom Morrison, Division of National Mapping. -- *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), Session 4, [2-9]. – 8 refs. The Division of National Mapping commenced digitising the topographic information from the World Aeronautical Chart in 1982. The paper describes the content and quality of the topographic data base, the cleaning and structuring programmes and the planned data base developments.

Clarke, T. F. and Dovey, S.

Landsat imagery – its rectification and potential application to 1:250 000 scale topographic map revision in Australia / T. F. Clarke and S. Dovey. -- *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), Session 13A, [9-13]. – 1 ref. -- The Division of National Mapping is developing a system for quicker and cheaper topographic map revision at 1:1 000 000 and 1:250 000 scales using rectified Landsat imagery, existing aerial photography and ancillary information.

Clews, H. P. and Rossiter, H.

Some aspects of military surveys / H. P. Clews and H. Rossiter, Australian Survey Corps. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1941, 8, 5, 264-269. – Discusses the structure of the military survey organisation and surveys undertaken in New South Wales.

Collins, Linda M.

Landsat imagery : an ideal tool for remote area mapping / Linda M. Collins. -- *In* Technical Papers, Australian Survey Congress (27th : 1985 : Alice Springs), 127-132. – Bibliogr.: p.132. – Indicates

the diversity of applications for which remote sensing is being used by the Queensland Department of Mapping and Surveying and its cost effectiveness.

Commonwealth Survey Committee Meeting

Summary of proceedings of the fifteenth meeting held at the Department of the Interior, Canberra, A.C.T. 18th November, 1952 / Commonwealth Survey Committee. – [Canberra, A.C.T. : Dept. of the Interior?, 1952]. – 4, [31] leaves (some folded) : 5 maps (some col.) ; 35 cm. – Deals with mapping and surveying matters of Australia and Papua New Guinea.

Conder, W. J.

see **New South Wales. Department of Lands. Annual report 1880.**

Conference of Surveyors-General (1912 : Melbourne)

Conference of the Director of Commonwealth Lands and Surveys, the Surveyor-General and the Government Astronomer of New Zealand, and the Surveyors-General of the States of the Commonwealth of Australia : Melbourne, 20th to 25th May, 1912. – Melbourne : Albert J. Mullett, Acting Government Printer. – 63 leaves, [1 leaf of plates] : portr. ; 33 cm. – Other title: Conference of Surveyors-General 1912. – At head of title: Commonwealth of Australia. Department of Home Affairs. – Concerned with surveys of Australia and New Zealand.

Conference on National Survey and Mapping of Australia, (1945 : Canberra)

Conference on national survey and mapping of Australia, [between] Commonwealth Survey Committee and State Surveyors-General held at Parliament House, Canberra, on 15th-19th January, 1945 : [Proceedings]. – Canberra, [A.C.T.] : Dept. of the Interior, [1945?]. – [4], 95 p., vii leaves ; 34 cm.

Contemporary cartography; Central Mapping Authority, Department of Lands New South Wales. -- *In* Cartography (Canberra: Australian Institute of Cartographers), March 1959, 3, 1, 26-28 : 1 col map. – Describes and illustrates production of the Nelligen C sheet, scale 1:31 680 topographic map series.

Contemporary cartography; Central Mapping Authority, Department of Lands New South Wales. -- *In* Cartography (Canberra: Australian Institute of Cartographers) Sept. 1960, 3, 4, 196-200 : 1 col. map on 2 pages. – Describes and illustrates production of the Quirindi B sheet, scale 1:31 680 topographic map series.

Contemporary cartography; [Department of Crown Lands and Survey, Victoria]. – 1 : 500 000 Map of Victoria / L. F. Heggie. -- *In* Cartography (Canberra: Australian Institute of Cartographers), July 1973, 8, 2, 79-80 : 1 col. map. – Outlines the procedures and principles followed in production.

Contemporary cartography; Department of Lands and Survey, Victoria. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Mar. 1956, 1, 3, 111-119 : 1 col. map on 2 pages. – Describes the survey procedures and photographic use of new plotting equipment and modern map drawing techniques used for the Castlemaine map 1:31 680 topographic series.

Contemporary cartography; Department of Lands, Western Australia. – Woodanilling 1: 31 680. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Mar. 1958, 2, 3, 105-107 : 2 fig., 1 col. map on 2 pages. – Describes the production methods used in the Mapping Branch, Surveyor-General's Division.

Contemporary cartography; Division of National Mapping. – Antarctica 1: 10 000 000. -- *In* Cartography (Canberra: Australian Institute of Cartographers), 1957-58, 2, 16-22 : 2 fig. , 1 col. map on 2 pages. – Brief outline of the revision, process and source materials used in the revised edition of the 1939 map.

– Antarctica 1: 10 000 000. – sixth edition / J. A. Yarra, Assistant Chief Cartographer, [Division of National Mapping]. -- *In* Cartography (Canberra: Australian Institute of Cartographers), March 1980, 11, 3, 161-162 : 1 col. map on 2 pages. – Outlines the production processes and describes the 1:20 000 000 map derived from it. Specifies the design and preparation which took from February 1979- November 1979.

Contemporary cartography; [Division of National Mapping]. – Bathymetric maps, 1: 250 000 bathymetric, Wide Bay / L. G. Turner. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Jan. 1974, 8, 3, 136-139 : 2 ill., 1fig. – A new series designed to cover the Australian continental shelf area.

Contemporary cartography; [Division of National Mapping]. – Tantangara 8626, National Map Series, 1: 100 000 / B. E. Goodrick, Chief Cartographer, Division of National Mapping. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Jan. 1975, 9, 1, 35-38 : 1 fig., 1 col. map on 2 pages. -- The new series applies new specifications designed for modern scribing, masking and production techniques. Roads and streams are classified.

Contemporary cartography; [Division of National Mapping]. -- Limbunya SE 52-7, 1 : 250 000 National Topographic Map Series / B. E. Goodrick. -- *In* Cartography (Canberra: Australian Institute

- of Cartographers), July 1976, 9, 4, 231-235 : 1 fig., 1 col. map on 2 pages. -- This new 1:250 000 series will replace the R502 series which was completed in 1968. The new series is wholly metric.
- Contemporary cartography; Division of National Mapping, Department of National Development.** – 1:250 000 Barrolka sheet [Series R502]. -- *In* Cartography (Canberra: Australian Institute of Cartographers), 1963-64, 5, 1 & 2, 21-25 : 2 fig.
- Contemporary cartography; National Mapping Office.** -- *In* Cartography (Canberra: Australian Institute of Cartographers), 1954, 1, 1, 21-24 : 1 col. map on 2 pages. – Outlines the functions of the National Mapping Office. Summarises the compilation of the 1 : 2 000 000 Map of the Northern Territory.
- Contemporary cartography; Royal Australian Survey Corps.** – The 1:50 000 scale series of Australia as produced by the Royal Australian Survey Corps, Department of the Army. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Sept. 1956, 1, 4, 151-160 : 1 col. folded map on 3 pages. – Describes the first sheet, Mildura, of a new topographic series designed to supersede the 1:63 360 series. Detail on policy decisions, design, fair drawing and reproduction.
- Contemporary cartography; Western Australia [Department of Lands and Surveys].** -- Western Australia one million series / H. R. Foston & B. E. Gilks, Western Australia Department of Lands and Surveys. -- *In* Cartography (Canberra: Australian Institute of Cartographers), July 1978, 10, 4, 212. – Outlines the processes adopted in the production of this series.
- Cook, D. P.**
Coastal mapping in Antarctica / D. P. Cook, Antarctic Mapping Branch, Division of National Mapping. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Dec. 1961, 19, 466-472 : 3 figs. -- Describes the procedures employed.
- Corry, M. J.**
Australian Antarctic Territory, Framnes Mountains-Depot Peak tellurometer traverse November 1965-January 1966 / by M. J. Corry. – Canberra, [A.C.T.] : Department of National Development, Division of National Mapping, 1969. – 18 p., 1 fold. leaf of plates : ill., 1 map ; 29 cm. – Technical Report (Australia. Division of National Mapping) ; 7. – Bibliogr. : p. 18.
- Coulthard-Clark, C. D.**
Australia's military map-makers : The Royal Australian Survey Corps 1915-96 / C. D. Coulthard-Clark. – South Melbourne, Vic. : Oxford University Press, 2000. – x, 246 p. : ill., 12 maps (9 col.) ; 23 cm. – Notes p. 209-233, bibliog. p. 234-239. -- Appendix 1. Senior appointments. Appendix 2. Survey Corps international operations 1970-94. – ISBN 0 19 551343 6.
- Cowling, S. G.**
Bathymetric surveying and mapping / S. G. Cowling, Senior Surveyor in the Survey Operations Branch, Division of National Mapping. – *In* Technical Papers, Australian Congress of Surveying and Mapping (1st : 1982 : Canberra) and Australian Cartographic Conference (5th : 1982 : Canberra), p. 43.
- Crane, Kevin**
Obsolescence – the on-going problem for cartographic information systems. Part 2. The need for revision due to the impact of change on topographic data / Kevin Crane, Division of National Mapping. – *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), [20-27]. – 3 refs. -- The amount of deterioration in reliability should determine the need for revision. Various techniques can be employed for determining this need and for effecting revision including the use of space imagery. Both graphical and digital methods are used for map revision.
- De Plater, Murray**
The Division of National Mapping / by Murray de Plater. – *In* Cartography (Canberra: Australian Institute of Cartographers), March 1987, 16, 2, Supplement : (Aug. 1987), 22-23. – Part of Australian Institute of Cartographers report to the International Cartographic Association
- Dibb, Paul**
Review of Australia's defence capabilities : a report to the Minister for Defence / by Paul Dibb. – Canberra, A.C.T. : Australian Government Publishing Service, 1986. – xv, 176 p. : [1] folded leaf of col. map ; 25 cm. – "March 1986". – An edited version excluding any comment on technical details of equipment performance. Comments on mapping pp. 63-64. – AGPS cat. no. 8604776. – ISBN 0 644 04923 5.

Featherstone, Will

ADDENDUM TO: An explanation of the Geocentric Datum of Australia and its effects upon future mapping / W.E. Featherstone. – *In Cartography* (Canberra: Australian Institute of Cartographers), June 1995, 24, 1, 43-44.

An explanation of the Geocentric Datum of Australia and its effects upon future mapping / W. E. Featherstone. – *In Cartography* (Canberra: Australian Institute of Cartographers), Dec. 1994, 23, 2, 1-12 : 4 figs., 4 tables. – Bibliogr. pp. 10-12. – Reviews the history of datums in Australia. Benefits and effects outlined. Method of updating maps explained.

An updated explanation of the Geocentric Datum of Australia (GDA) and its effects upon future mapping / Will Featherstone. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1996, 41, 2, 121-130 : 4 figs., 4 tables. – Bibliogr. pp. 129-130.

Fitzgerald, L.

The co-ordination of the trigonometrical surveys of Queensland, New South Wales and South Australia / L. Fitzgerald. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1934, 5, 1, 22-31.

Lebanon to Labuan : a story of mapping by the Australian Survey Corps, World War II (1939 to 1945) / Lawrence Fitzgerald. – Melbourne : J. G. Holmes, 1980. – xii, 124 p. : ill., maps, portr. ; 29 cm. – World War II Army operations by Australia. Army Survey Corps in the Middle East, South West Pacific Area and New Guinea. – Appendix A. Schedule of operations of 2/1 Corps Field Survey, June 1941 to January 1942. – Appendix B. Regimental list of officers. -- Appendix C. GHQ Mapping Directive.

Mapping a continent / L. Fitzgerald. – *In Australian Army Journal* (Melbourne: Directorate of Military Training), no. 7, June-July, 1949, 53-57 ; 21 cm.

The story of the Australian Survey Corps / L. Fitzgerald. -- *In Technical Papers, Australian Survey Congress* (6th : 1962 : Adelaide). Not found.

Ford, R. A.

The Division of National Mapping's part in the geodetic survey of Australia / R. A. Ford. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1979, 29, 6, 375-427: 8 ill., 13 figs. -- Continued in Sept. 1975, 29, 7, 465-536 : 25 ill., 11 figs. -- Concluded in Dec. 1979, 29, 8, 581-638. – Deals with the Melbourne Office over the years 1951-1969.

Foskett, Alan

The early days of the Atlas of Australian resources, 1948-1955 / by Alan Foskett. – Canberra, [A.C.T.] : A. Foskett, 1993. – 26 p. : ill., portr. ; 30 cm.

Fryer, John

Computer mapping in the Division of National Mapping / John Fryer. – *In* [Papers], Australian Survey Congress (18th : 1975 : Perth, Australia), 11-18. – Fryer was Research Surveyor in the Division from 1970 to 1974 working on the implementation of computer mapping systems. Discusses the six areas where computer mapping has replaced manual cartography.

Furber, T. F.

The trigonometrical survey of New South Wales, with mention of similar surveys in other Australian colonies / T. F. Furber. – *In Proceedings* (Australia and New Zealand Association for the Advancement of Science), Jan. 10, 1898, Section A, Paper 4, 176-237, [8] pages : diags., maps.

see also Anon, Review of T. F. Furber's The Trigonometrical ...

Fyfe, W. V.

Geodetic and topographical surveys in Western Australia / by W. V. Fyfe, Surveyor-General, Western Australia. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1956, 16, 1, 22-27: 1 map. – A brief history.

Gillespie, James G.

Advisory Committee on Commonwealth Mapping report / by James G. Gillespie. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1958, 17, 3, 151-152.

Commonwealth to speed up mapping / J. G. Gillespie. -- *In Traverse* (Melbourne: Institution of Surveyors, Australia. Victorian Division), Nov. 1965, 11, 1. – Press release made available to Institution. Announcement of a ten year programme to map at 1:100 000 scale.

National Mapping : Institution of Surveyors, Australia, Report of Council to Eleventh General Meeting / J. G. Gillespie, [ISAMember on the Advisory Committee on Commonwealth Mapping]. – *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1964, 20, 2, 113-117 : 1 col. map. – Covers various aspects of work carried out, including number of sheets published at various scales and international activities.

National Mapping / James G. Gillespie, [ISA member on the Advisory Committee on Commonwealth Mapping]. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1956, 16, 4,

- 199-200. – Being a report to the President of the Institution on Commonwealth mapping and surveying.
- National Mapping / J. G. Gillespie, ISA member on the Advisory Committee on Commonwealth Mapping. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1963, 19, 6, 369-370. – Report on survey activities including progress with tellurometer traversing, air photography and mapping. Antarctic work also covered.
- Report on Advisory Committee on Commonwealth mapping / by James G. Gillespie. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1961, 18, 6, 326 : 1 col. map. – Map shows sheets published for the 4 mile and 1:250 000 topographic series.
- Report on National Mapping / James G. Gillespie. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1957, 16, 7, 394-395. – Report on the progress of the Advisory Committee on Commonwealth Mapping.
- Report on the Advisory Committee on Commonwealth mapping / James Gillespie. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1961, 19, 2, 326 : 1 col. map.
- Hall, H. M.**
A simple silk screen equipment for limited map reproduction / Lt. Col. H. M. Hall, Royal Australian Survey Corp. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East* (5th : 1967 : Canberra), v. 2, 463-464. – Description of simple equipment suitable for in field publishing of 6 colour maps. – E/CONF.52/L. 74.
- Helyar, Geoffrey**
They led the way : a short account of the Lands and Survey Department of the Northern Territory, 1869-1978 : part one, 1869-1939 ; part two 1940-1978 / Geoffrey Helyar. – [Darwin, N. T.] : Department of Lands and Housing, 1990. – 178 p. : ill., maps ; 25 cm. – A history of the Department of Lands and its work. --ISBN 0724514597.
- They led the way : a short account of the Lands and Survey Departments of the Northern Territory. Part 1. 1869-1939 / by Geoffrey Helyar. – [Darwin : Department of Lands, 1983]. – 39 leaves : maps (some fold.) ; 30 cm. – A short history of the Department of Lands and of surveying for land settlement and land tenure. --ISBN 072450239
- Higgins, N. J.**
The Trigonometrical Survey Division, Central Mapping Authority, Department of Lands New South Wales / by N. J. Higgins. – Paper presented to the [Australian] Survey Congress (6th : Adelaide : 1962), ca. 20 p. – Covers scope of work performed by the Division, methods, and progress up to the present from 1828. – Typescript held in Lands Department Library.
- Hillier, N. R. J.**
Colonial surveyors: the Royal Engineers in the colonies military cartographic endeavours from settlement / John Hillier. -- *In The Globe: journal of the Australian Map Circle, Inc.* (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1994, 40, 1-11. – 8 refs. -- Includes a section on the foundation of the Royal Australian Engineers and their work up until the 1930s. – Another version in *Technical Papers, Australian Cartographic Conference* (7th : 1988 : Sydney), 349-365.
- Developments in map production / by N. R. J. Hillier, Royal Australian Survey Corps. – *In Report of Proceedings, Conference of Commonwealth Surveyors* (1987 : Cambridge), Part I, Paper No. E.1, 18 p. : 2 figs. – Examines use of Ultra High Altitude photography at scale of 1:140 000, supplemented by Landsat imagery, the use of SORA-OP program for orthophotomap production. Also discusses use of simulated colour enhancement for cartography of outback mapping since 1981, duotone and random dot techniques in printing, analytical hill shading, rapid response publication processes, and five colour process printing of line mapping.
- Eighty years back – mapping the A[ustralian] C[apital] T[erritory] for the R[oyal] M[ilitary] C[ollege] / John Hillier. – *In Canberra Historical Journal* (Canberra: Canberra and District Historical Society), New Series, Sept. 1991, no. 28. – v. : ill. ; 30 cm. -- Paper read to Australian Survey Conference (32nd : 1990 : Canberra). -- Describes the background to the decision for the newly formed Survey Section, Royal Australian Engineers to collaborate with the Department of Home Affairs, Department of Defence and the New South Wales Department of Lands to produce the 1 mile military topographic map of Canberra.
- Military contributions towards the strength of unity of the Northern Territory topographic framework / John Hillier *In Technical Papers, Australian Survey Congress* (35th : 1993 : Darwin), 137-60. – Traces the development of military mapping in the Northern Territory from 1905 to 1945 within the context of surveying and cartographic activities Australia wide but focusing on the requirements to prepare for war. Includes comments on Japanese copies of Australian military maps.

Military topographic mapping and charting in South Australia / John Hillier. – *In* Proceedings, Australian Conference on Mapping and Charting (1st: 1992 : Adelaide), 294-295. – Abstract only.

Hocking, David R.

Mapping data and the National Mapping Programme / by D. R. Hocking, Senior Surveyor, Survey and Mapping Services, Division of National Mapping. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1975, 4, 31-37. – Information on basic mapping data, aerial photos and map control with a description of their uses in the national topographic mapping program.

Natmap early days, map compilation from aerial photographs 1948-1970s / David R. Hocking. – *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1998, 47, 16-33 : ill., maps (1 col.). – 5 notes & [12 refs]. – Includes summary of aerial photography development in Australia from 1920s to 1998. Paper read to the Australian Map Circle Conference, Univ. of Wollongong, Feb. 1998. – ISSN 03111-3930.

National Mapping / Dave Hocking, Department of National Resources, Melbourne, Division of National Mapping. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1976, 5/6, 16-17. – Status report on current mapping programs and services.

Star tracking for mapping – an account of Astrofix surveys by the Division of National Mapping during 1948-1952 / David R. Hocking. – *In* Technical Papers, Australian Survey Congress (27th : 1985 : Alice Springs), Paper 3, 13-27 : 13 ill., 1 map. – 9 refs. – Describes National Mapping's field survey activities for fixing position, barometer heighting and air photo identification used for compiling the 4 mile and 1:250 000 topographic map series.

Holden, G. F. J.

Future topographic mapping programme for Australia / G. F. J. Holden. -- *In* Technical Papers, International Cartographic Association Conference (12th: Aug. 1984 : Perth, Australia), 2, 125-133 : 2 tables. -- 4 refs. – Paper deals with the current status of topographic mapping includes some recommendations for new directions.

Honan, C. S.

Mapping in Australia / C. S. Honan. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), March 1939, 7, 5, 269-272. – Describes the Victorian contribution towards inaugurating a national scheme for mapping the continent.

Horn, John and Wise, Paul

The use of geocoded satellite images for map revision / John Horn and Paul Wise, Australian Centre for Remote Sensing, Australian Surveying and Land Information Group. – *In* Technical Papers, Australian Cartographic Conference (8th : 1990 : Darwin), 81-91 : 5 figs., 2 tables. – Describes geocoding process and the possibility of using this data for map revision

Hunt, J. F.

Military map makers in northern Australia 1943-45: No. 1 Section 6 Aust. Army Topographical Survey Coy. : how, why, where and when they operated / compiled and edited by J. F. Hunt ; contributing editors Kevin J. Noonan and Joe E. Dowling. – Apollo Bay, Vic. : J. F. Hunt, 1998. – 125 p. : ill., maps, portr. ; 31 cm. – Part describes their work in the Northern Territory. -- ISBN 0646354086.

Hurren, A. F.

The geodetic survey of Australia / A. F. Hurren, Officer in Charge, Records Information and Research, Division of National Mapping. – *In* Cartography (Canberra: Australian Institute of Cartographers), March 1959-60, 3, 1, 38-48. – History of the development of the survey. – 14 refs.

Institution of Surveyors, Australia. Australian Geodetic, Topographical and Geological Committee

Australian Geodetic, Topographical and Geological Committee. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Aug. 1928, 1, 46. – Provides the origins of a committee to inform public of the need for surveys of the continent.

Institution of Surveyors, Australia. Australian Survey Committee

Report on the need for a geodetic and topographical survey of Australia : report prepared at the request of the Development and Migration Commission / The Committee. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), 1930, 2, 1, 6-19. – Appendices pages 14-19: i. Trigonometric surveys in the Commonwealth. ii. Geodetic and topographic surveys of other countries. iii. The need for accurate topographic maps in defence. iv. Duties of the Director General of the Geodetic Survey. – Contents page gives journal numbering as 1929, vol 2. no.1.

Second report on the need for a geodetic and topographical survey for Australia / The Committee. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1935, 5, 6, 352-361. – Summarises previous conferences and reports on the subject and resolutions passed. Puts forward a costed scheme for the survey and makes final recommendations to government.

Institution of Surveyors, Australia. Mapping and Charting Standing Committee

The status of medium scale topographic mapping in Australia (extract from a report to ISA Council meeting, 2 Oct. 1987) / Mapping and Charting Standing Committee. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1987, 33, 8, 781-789 : 7 maps.

Institution of Surveyors, Australia. Research Committee.

Mapping and charting of Australia including the Submerged Lands of the Exclusive Economic Zone : Submission made to the Minister of National Development, November 1978 / Research Committee of the Institution of Surveyors, Australia . -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1978, 29, 4, 286-290 : 1 table.

Institution of Surveyors, Australia and the Australian Institute of Cartographers

Mapping of the Australian land mass / Australian Institute of Cartographers and the Institution of Surveyors, Australia : further meeting with the Minister of National Development and Energy on February 7th 1983. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1983, 31, 5, 344-348 : 2 figs.

Institution of Surveyors, Australia. New South Wales Division

Preparation of maps – Deputation to the Minister / New South Wales Branch, I. S. A. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1934, 5, 2, 95-96.

Institution of Surveyors, Australia. Victorian Division and the Australian Institute of Cartographers

Mapping Victoria – a report / prepared by [a Committee of the] Victorian Division of the Institution of Surveyors, Australia and the Australian Institute of Cartographers, July 1982. – [Melbourne : The Committee, 1982]. – 5 p., 2 p., 2 p., 3 p. ; 29.5 cm. Processed. Includes two appendices of questionnaire forms and a third appendix with list of respondents. Identifies the need for increased mapping of the state of differing types. Ten recommendations are made to the Minister of Lands.

Intergovernmental Committee on Surveying and Mapping

Report of the Intergovernmental Committee on Surveying and Mapping. – Belconnen, A.C.T. : ICSM, 1997. – 12 p. ; 30 cm. – Brief reports on major topics undertaken.

see also **Baker, Graham and Irwin, Bob**

International Council of Scientific Unions. Working Group on Geodesy and Cartography

Catalogue of Antarctic maps and charts / compiled on behalf of the Scientific Committee on Antarctic Research [by the Working Group on Geodesy and Cartography] – Ed. 4 rev. – Canberra, [A.C.T.] : Division of National Mapping, Department of Minerals and Energy, 1976. – v. [looseleaf] ; 24 x 37 cm. – Bibliogs. Preface in English, French , Russian and Spanish.

Catalogue of topographic maps, aeronautical and hydrographic charts of the Antarctic / compiled on behalf of the Scientific Committee on Antarctic Research [by the Working Group on Geodesy and Cartography]. – 3rd. ed. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1969. – 149 leaves ; 22 x 33 cm. – First ed. prepared by the Special Committee on Antarctic Research.

see also **Scientific Committee on Antarctic Research**

Jensen, Peter A. see Australia. Army. Directorate of Military Geographic Information

Johnson, H. A.

Geodetic surveys through the Australian sandridges / by H. A. Johnson. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1964, 20, 3, 157-184 : 6 ill., 1 fig., 1 map.

The high-level geodetic survey of New Guinea / H.A. Johnson. – Canberra, [A.C.T.] : [Department of National Development], March 1969. –170 p. : 7 ill., 1 fig., 1 table , 2 maps. -- (Technical report / Department of National Development, Division of National Mapping) ; 8. – Also in [Papers], Australian Survey Congress (12th : 1969 : Melbourne), 127-170 : ill., 1 table fold., 3 maps (2 fold.)

Johnson, Richard

Mapping New South Wales / Richard Johnson. --*In Geography Bulletin* (Sydney: Geographical Society of New South Wales), Jan. 1985, 17, 249-250 ; 21 cm. – Briefly covers 1947 to 1985 New South Wales mapping.

Johnston, D.

A common large scale mapping system for use throughout Western Australia / D. Johnston, Chief Cartographer, Department of Lands and Surveys, [Western Australia]. -- *In Cartography* (Canberra:

Australian Institute of Cartographers), Jan. 1973, 8, 1, 19-22 : 4 fig. – Describes the new referencing system for metric mapping.

Johnston, F. M. (Frederick Marshall)

Australian organisation for a) cadastral surveys b) topographical mapping / F. M. Johnston. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar.-June 1948, 12, 1&2, 63-71. – Paper delivered to the Empire Survey Conference, 1947. – Deals briefly with trigonometric surveys in each state followed by a discussion of early military mapping and the International Map of the World cartography carried out by the Department of the Interior. There is reference to the Commonwealth Survey Committee and the establishment of the National Mapping Council of Australia.

Report on mapping activities in Australia as at 30th June, 1948 / by F. M. Johnston, for presentation to the Social and Economic Council of the United Nations Organisation. – Canberra, A.C.T. : Dept. of the Interior, 1948. – 8 leaves : 10 fold. maps (some col.) ; 34 cm. – Report on surveying Australia.

Kennedy, G. H. C.

An integrated programme of surveying and mapping / G.H.C. Kennedy. – *In* Proceedings, Australian Survey Congress (13th : 1970 : Adelaide), 2:1-2:15 : 5 figs. – Bibliog.: 10 refs. – An address given to the 6th Survey Congress, Adelaide, 1962. -- Describes current planning proceedings and experience gained in South Australia with map series for 1:2 500 – 1:50 000 scales.

The development of standard mapping in South Australia / G.H.C. Kennedy. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1962, 19, 2, 107-113. – Discusses the 2 inches to a mile series.

South Australian mapping / G. Kennedy (Surveyor-General of South Australia). -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1976, 5/6, 11-15. – Account of beginnings of topographical mapping by the Royal Australian Survey Corps in 1934. Description of work carried out by the Lands Department to date.

Kilminster, M. H.

Recent advances in cartography with reference to the drawing and production of the map / M. H. Kilminster. – *In* Proceedings, Australian and New Zealand Association for the Advancement of Science Conference Section P (Geography and Oceanography), August 1962, 1-9. – Describes the drawing, lettering, scribing and printing techniques used in the Department of Lands, New South Wales. – Appears also under the title “The drawing and production of maps” in Cartography (Canberra: Australian Institute of Cartographers), Mar. 1962, 4, 3, 81-88.

Kirby, S. L.

Airborne heighting during Australian National Antarctic Research Expedition (A.N.A.R.E.) 1960 / S. L. Kirby, surveyor with A.N.A.R.E., 1956 and 1960. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Dec. 1963, 19, 8, 439-449 : 3 figs, 2 tables, 1 map. – Reports on field and office techniques used by the Division of National Mapping when employing the method described in the “Bureau of Meteorology’s Working Paper 57/1349—October, 1959 barometric determination of height / by G.U. Wilson”.

Knibbs, G. H.

Review of T. F. Furber’s ‘The trigonometrical survey of New South Wales, with mention of similar surveys in other Australian colonies’ / G. H. Knibbs. – *In* The Surveyor (Sydney: Institution of Surveyors, New South Wales), 15 Mar., 1899, XII, 3, 78-82.

Laing, A. W.

The end of an era : a short history of the Royal Australian Survey Corps’ involvement in mapping, charting and geodesy in Papua New Guinea in the period 1942-1995 / A.W. Laing. – [Hackett, A. C. T. : A. W. Laing, 1997]. –16 leaves ; 21 cm.

Lambert, B. P.

Air photography and topographic mapping in Australia / B. P. Lambert, Director of National Mapping, Department of National Development. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 27-32 : 4 figs., 1 table. – Progress report on cartographic activities since Jan. 1963-Dec. 1965. – Agenda item 6. Scales from 25 000-250 000 by the Division of National Mapping, Army, Department of the Interior and by state Lands departments. –E/CONF.52/L.1

The Australian geodetic survey – an interim report on the utilisation of electronic distance measuring equipment / B. P. Lambert, Director of National Mapping. – *In* Report of Proceedings, Conference of Commonwealth Survey Officers (8th : 1963: Cambridge), 72-75 : 1 map. – Good evidence that

- sound primary geodetic survey can be carried out by Tellurometer traversing, if frequent Laplace azimuth control is provided.
- Australian geodetic surveys, past, present and future / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1977, 28, 6, 331-339. – 13 refs. Includes discussion on likely mapping changes.
- Cartographic activities in Australia from 1 January 1967 to 3rd December 1969 / B. P. Lambert, Division of National Mapping, Department of National Development. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East* (6th : 1970 : Tehran), v. 2, 17-24 : 5 figs., 6 col. maps (in pocket). – Pages 17-21 cover topographic mapping. – Also deals with Papua and New Guinea. – Annexure A. National geodetic survey as at 31st Dec. 1969. – Annexure B. National levelling survey as at 31st Dec. 1969. Annexure C. Australia air photographs as at 1st March 1970 (shows Commonwealth and state coverage at 1:80 000 and other scales). Deals with the 1:100 000 and 1:250 000 series..
- A figure of the earth for Australia / B. P. Lambert, Director of National Mapping, Canberra, A.C.T. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1962, 19, 178-185 : 11 refs. – Paper given to the 1962 Conference of the Australian and New Zealand Association for the Advancement of Science. -- A provisional figure for Australia is scheduled for 1965.
- Further report on the Australian national geodetic survey / B. P. Lambert, Director of National Mapping. – *In Report of Proceedings, Conference of Commonwealth Survey Officers* (10th : 1971: Cambridge), 58-62 : 3 tables, 6 maps (some col.). – An update with some comments on future developments. – 8 Annexes. A. National geodetic survey. B. National levelling survey. C. Misclosure of loop of primary geoidal profiles. D. Misclosure of all loops of geoidal profiles. E. Differences in elevations at tide gauges. F. Data form field books. G. Australia – geoid contour maps. H. Papua New Guinea- Preliminary geoid contour maps.
- Geodetic survey and topographical mapping in Australia / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1969, 22, 7, 515-528. – Covers early mapping from 1907, modern mapping to mid 1960s including work under the direction of the National Mapping Council and the Division of National Mapping. Indicates future trends.
- The geodetic survey of Australia / B. P. Lambert, Director of National Mapping, Department of National Development. – *In Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East* (5th : 1967 : Canberra), v. 2, 126-131 : 6 figs. – Annexure. Closure of Trans-Australian traverse (to be read with figure 6) – History from 1912-1966. – E/CONF. 52/L.51.
- Geodetic surveying in Antarctica, 1967-1970 / by B. P. Lambert. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1971. – 22 leaves : fold. map ; 29 cm. -- Report presented to the 15th General Assembly of the International Union for Geodesy and Geophysics and the International Association of Geodesy, Moscow, 1971. – ISBN 0642956006.
- The geodimeter and its uses / by B. P. Lambert. [Paper given to the Institution of Surveyors, Australia, 3rd Annual Meeting, Perth, Sept. 1956]. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1956, 16, 4, 213-229 : 6 ill., 12 figs. – Description and explanation of the use of the equipment in Australia where it has only been in use for three years.
- The impact of satellites on mapping / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1973, 25, 4, 303-315 : 2 figs., 3 tables. – 6 refs. – Deals primarily with topographic mapping and begins by reviewing the present status of mapping.
- The Johnson Geodetic Survey station / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1968, 22, 2, 93-95 : 2 ill.
- Mapping under pressure / by B. P. Lambert, Director of National Mapping, Division of National Mapping, 1963. – *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1966, 21, 1, 711-716. -- Paper given to the United Nations Conference on Science and Technology, Geneva.
- Modern techniques of geodetic and topographic surveying / by B. P. Lambert, Director of National Mapping, Department of National Development, Canberra. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1958, 17, 1, 30-41. – Reviews the various techniques in use and forecasts likely future developments in techniques and equipment.
- National Mapping / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1973, 25, 2, 163-167. – A review of achievements of the Division of National Mapping.

- The National Mapping Council of Australia – forty years on / B. P. Lambert. – *In Cartography* (Canberra: Australian Institute of Cartographers), Sept. 1985, 14, 2, 112-115 : ill. – Reviews achievements of the Council from 1945. Photograph of Council.
- National Mapping Council report on map co-ordinate systems – 1976 / B. P. Lambert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Mar. 1977, 28, 5, 299-302.
- Production of small and medium scale maps with the use of orthophotography / B. P. Lambert, Director of National Mapping. – *In Report of Proceedings, Conference of Commonwealth Survey Officers* (10th: 1971: Cambridge), 149-157: 2 col. pl. – Annexe A. Notes on contouring between spot heights. – B. Orthophotomaps production times.
- Retirement of B. P. Lambert *In Cartography* (Canberra: Australian Institute of Cartographers), Jan. 1977, 10, 1, 11 : 1 portr.
- Topographic mapping in Australia : development 1945-1975 / B. P. Lambert. – *In [Technical Papers], Australian Cartographic Conference* (2nd : 1976 : Adelaide), Section 13, 1-14 : 1 fig. – 3 refs. Appendix headed 'National Mapping Council of Australia' gives the Australian Geodetic Datum, Height Datum and Map Grid.
- The use of Aerodist for filling in between Tellurometer traverse loops / B. P. Lambert, Director of National Mapping. – *In Report of Proceedings, Conference of Commonwealth Survey Officers* (9th : 1967 : Cambridge), Paper 3B, 93-104 : 3 tables, 3 maps. – 5 refs. – Includes 7 Annexes. A. Report of precision obtained in various Aerodist survey operations. B. Investigations into error patterns in block adjustments or trilateration models. C. Diagram illustrating Australian 10 year 1: 100 000 scale topographic mapping programme. D. Diagram illustrating the present states of horizontal control surveys in New Guinea. E. Investigations into horizontal control required for 1:100 000 scale mapping. F. Comparisons of relative cost and time factors between Aerodist and Tellurometer survey in Australia.
- Lambert, B. P. and Leppert, K.**
A study of the Australian National Levelling survey / B. P. Lambert and K. Leppert. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1976, 28, 2, 89-95. – 7 refs. -- Establishing a height datum quickly. Annexe A shows Division of National Mapping's Rapid first order levelling (p.85).
- Larden, D. R.**
Review of some research and development activities at the South Australian Lands Department / D. R. Larden, Survey Director, Department of Lands, G. L. Smith and D. M. Grant. – *In Technical Papers, Australian Survey Congress* (25th : 1983 : Melbourne), 121-134 : 3 fig., 2 tables. – Bibliogr.: 133-134. – Through corporate planning a framework for research is met. Some aspects discussed are aerotriangulation techniques, coastal protection and levelling programs.
- Larsgaard, Mary**
Topographic mapping of the Americas, Australia, and New Zealand / Mary Lynette Larsgaard. – Littleton, Colo. : Libraries Unlimited, 1984. – xii, 180 p. ; 25 cm. – Bibliogr. : p. 113-70. – ISBN 0 872 87276 9.
- Law, P. G.**
Surveying the last continent / P. G. Law. – *In Cartography* (Canberra: Australian Institute of Cartographers), Dec. 1970, 7, 2, 76-86. – Address to the annual Survey Congress, Institution of Surveyors, Australia. – A history describing the problems of ice and weather.
- Lawford, G. J. and Smith, C. J. H.**
The application of satellite imagery in the Australian mapping program / by G. J. Lawford and C. J. H. Smith, Australian Surveying and Land Information Group. – *In Technical Papers, Mapping Sciences Conference* (1996 : Canberra), 43-47: 1 fig., 2 tables. -- Refs. 2 – Spot photography used for map revision of national topographic series, both paper based and digital compilations.
- Lea, M. J.**
Map showing sheets published at 1:250 000 and 1:253 440 scale from 1951-1961 by the Division of National Mapping, the Royal Australian Survey Corps, the States' Lands Departments and the South Australian Mines Department. – *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1961, 18, 6 : Supplement, Presidential address. – Shows ten year output of topographic maps of Australia at these scales.
- Leppert, K.**
The Australian Doppler satellite survey 1975-1977 / K. Leppert. – Canberra, [A.C.T. : Department of National Development], 1978. – ii, 7 p. : 2 figs., 2 tables, 11 maps. -- (Technical report / Department of National Development & Energy, Division of National Mapping) ; 21. – To test the accuracy of 1966 AGD and to provide parameters to transform co-ordinates on the AGD and AHD to the Geocentric World Datums WGS72 and NWL 9D.

- Geodesy in Australia, 1956-1972 / K. Leppert, Supervising Surveyor, Geodetic Branch, Division of National Mapping, Canberra. – *In* Technical Papers, Australian Survey Congress (16th : 1973 : Canberra), A1-A6 : 3 col. maps. – Describes the homogenous geodetic control system obtained using the tellurometer, automatic levelling instruments and electronic computers. – Refs. 7.
- Problems encountered in the use of Third order levelling for the National Levelling Grid / K. Leppert. – *In* Colloquium on Control for Mapping by Geodetic and Photogrammetric Methods, University of New South Wales, 22-24 May, 1967, 123-134 : 1 fig. – 4 refs.
- Two Australian baselines for the geodesic world triangulation / by K. Leppert. -- Canberra, [A.C.T. : Department of National Development], March 1972. – 21 p. : 5 figs., 2 maps. – Bibliogr. p. 21
- Lindsay, Grahame**
- Australian initiatives in land and geographic information: the role of the Australian Surveying and Land Information Group / G. K. Lindsay. – *In* Report of Proceedings, Conference of Commonwealth Survey Officers (15th : 1991: Cambridge), Paper no. F. 2, 11 p. – 4 refs. – AUSLIG plays a leading role in land co-ordination at national level and also within the Commonwealth government.
- Australian Surveying and Land Information Group, Department of Administrative Services / [Grahame Lindsay]. -- *In* Cartography (Canberra: Australian Institute of Cartographers), June 1991, 20, 1 : Supplement (July 1991), 32-36 : 4 ill. – Part of Australian Institute of Cartographers report to the International Cartographic Association. Report on creation of AUSLIG and its work.
- Ceremony marks completion of 1:100 000 series. – *In* Cartography (Canberra: Australian Institute of Cartographers), Dec. 1988, 17, 2, 80-82 : 3 ill. – Text of the speeches by Grahame Lindsay, General Manager of the Australian Surveying and Land Information Group (AUSLIG) and Stewart West, Minister for Administrative Services.
- Lines, A. J.**
- National mapping / A. J. Lines, President, Institution of Surveyors. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1957, 16, 7, 399-401. – Brief history as supplied by Bruce Lambert for the 1957 Presidential Address, of the progress of mapping at the national level.
- Lines, John D.**
- Aerodist in Australia / by J. D. Lines. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1966, 21, 2, 733-751 : 6 ill., 6 figs. – 5 refs. – Reports on Division of National Mapping's work with Aerodist during 1963-1966 to extend the range of horizontal control and provide aircraft positioning in aerial surveying. – The original paper presented to the 8th Australian Survey Congress, Canberra, April 1965, dealt with work up to 1964.
- Application of airborne profile recording to 1:100 000 scale mapping / J. D. Lines. – *In* Report of Proceedings, Commonwealth Survey Officers Conference (10th : 1971: Cambridge), Pt. I, 204-209 : 4 figs. – Terrain profiling using a contour interval of 20 metres is better suited to areas of cold climate.
- Australia on paper : the story of Australian mapping / John D. Lines. – Box Hill, Victoria : Fortune Publications, 1992. -- ix, 343 p. : ill., maps ; 25 cm. – References and notes pp. 330-339. "From Flinders to the present". Includes Appendix: "Notes on the "One Inch" and other medium scale maps": pp. 311-329. – ISBN 0 646 09769 5.
- see also Australia. Army. Royal Australian Survey Corps. History Committee, Birtles, Terry, Prescott, Dorothy F. and Sebert, L. M.**
- Control surveys for 1:100 000 mapping / J. D. Lines. – *In* Cartography (Canberra: Australian Institute of Cartographers), Dec. 1967, 6, 3, 133-140 : 1 map. – Paper presented to a Colloquium on Control for Mapping by Geodetic and Photogrammetric Methods, University of New South Wales, May 22-24, 1967. – Paper 9, 154-169 : 1 map. -- 8 refs.
- Letter to the Editor, Australian Surveyor, re T. C. Sargent's 'The Royal Australian Survey Corps 1915-1990 / J. D. Lines. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), March 1995, 40, 1, 66-67. – Comments on the genesis of the National Mapping Council of Australia, on Australia's 'golden age' of mapping activity, on the Advisory Committee on Commonwealth Mapping (ACOCM) and its successor the Intergovernmental Committee on Surveying and Mapping (ICSM) and the RASvyC offshore mapping activities in neighbouring countries.
- Map products and future trends in mapping / J. D. Lines. – *In* [Proceedings], Australian Cartographic Conference (1st : 1974 : Sydney), 8 p. – J.D. Lines is Assistant Director of National Mapping. – Techniques and products experiencing marked changes reflecting accelerated progress in technology. Keeping abreast is the challenge.
- Maps in all seasons : a concise history of the 2/1st Field Survey Company RAE and 2/1st Aust. Army Topographical Survey Company / by John D. Lines. – Beaumaris, Victoria : 2/1st Survey

- Association, 1999. – 71p. : ill., map ; 25 cm. – Includes Annexes “The Company Establishment, February, 1941”, “Maps and miscellaneous printing, Middle East”, and “Nominal roll of members, 1940-1945. – ISBN 0 646 35897 9.
- Orthophoto maps – maps of the future / J. D. Lines. -- *In* Proceedings, Australian Survey Congress (13th : 1970 : Adelaide), 18:1-18 : 6 : 3 figs. – Discusses early equipment used for producing orthophoto maps in the Division of National Mapping and the methods used to produce contours. Forecasts it will have an impact on map revision processes.
- Orthophotography and the 1:100 000 mapping programme / J.D. Lines, Assistant Director, Division of National Mapping, Department of National Department. -- *In* Papers, Australian and New Zealand Association for the Advancement of Science Congress (43rd : 1971 : Brisbane), Section 21, Geographical Sciences G 17, 10 pages : 4 figs. – 2 refs. – Provides a quick and accurate solution to the rectification of aerial photography. Useful as alternative product to conventional line map.
- Report of the Auroral baseline survey Macquarie Island / John D. Lines, 1958. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1958. Not seen.
- Spot photography for map revision / J. D. Lines. – *In* Cartography (Canberra: Australian Institute of Cartographers), 1962, 4, 4, 135-139. – Brief description of considerations to be taken.
- William Throsby Bridges and Australian military mapping. – *In* The Australian Surveyor (Sydney: Institution of Surveyors, Australia), March 1998, 43, 1, 20-23.
- Lores, Peter**
Topographic information system of South Australia (TOPIS) / Peter Lores. – *In* Landform, Nov. 1987, 5, 11-12, 17.
- Love, A. R.**
An integrated system of mapping using grid values for sheet identification / by A. R. Love. – *In* [Papers], Australian Survey Congress (18th : 1975 : Perth, Australia), 95-104 : 3 figs. – Love is the Superintendent Mapping, in the Survey Branch, Department of Lands , Tasmania. Describes the system of map sheet presentation which uses rectangular co-ordinate values as a means of identifying individual map sheets using the values of the Australian Map Grid. The system as adopted in Tasmania for the 1:20 000, 1:10 000 and 1:2 000 series.
- Milestones in mapping / A. R. Love. – *In* Technical Papers, Australian Cartographic Conference (4th : 1986 : Hobart), Section 6, 1-6, 4 plates. – 2 refs. Covers from 1772-1970s.
- Love, R. James**
Cartography in Australia / R. James Love. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1977, 8, 23-25. – Overview of cartography in Australia from the beginnings of the twentieth century.
- Lovejoy, Valerie**
The map makers of Fortuna : a history of the Army Survey Regiment / Valerie Lovejoy. -- Bendigo, Vic. : Ex-Fortuna Association, 2003. – x, 234 p. : ill., ports., maps (some col.) ; 30 cm. – Appendices. 1. Hall of Fame (List of framed photographs of past Commanding Officers and Regimental Sergeants Major. 2. Topographic Squadron Field Surveys 1957-1966 (2 maps). 3. The Detachment. 4. The CMF Increment. 5. Changes in technology affecting the Survey Regiment (1930-1995) , 185-194 p. 6. Nominal roll 1942-1996. -- Bibliogr.: 215-224 p. – ISBN 0646 42120 4.
- Lyons, K. J.**
An approach to planning the accuracy required of control points for topographic mapping (with reference to the 1:100 000 mapping series) / by K. J. Lyons. – *In* Technical Papers, Australian Survey Congress (12th : 1969 : Melbourne), 1-11 : 12 figs., 1 col. map. – Suggests methods that may be applied to any mapping process to achieve planning accuracy required. – 13 refs.
- Height control for topographic mapping / K. J. Lyons. -- *In* Technical Papers, Australian Survey Congress (17th : 1974 : Melbourne), 80-99 : 17 figs.
- A method of aerial annotation for 1:250 000 mapping / K. J. Lyons. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1968, 22, 3, 179-184. – As applied to Western Australian mapping.
- McCarthy, J. E.**
Mapmakers of Australia : the history of the Australian Institute of Cartographers / J. E. McCarthy. – [Canberra, A.C.T. : The Institute, 1988]. – [v], 183 p. : ill., portr. ; 29.5 cm. – References and bibliogr. : p. 178-183. – Includes 7 Appendices pp. 129-177 among which “Australian Photogrammetric and Remote Sensing Society”, “Office Bearers and Councillors” (1951-1987). – The first three chapters deal with the early history of surveying and mapping the continent.

McComb, H. S.

Aerial surveying and mapping / H. S. McComb. -- *In* Queensland Surveyor (Brisbane, Qld.: Queensland Institute of Surveyors), VII, 1, 1926, 6-20.

Mapping Australia / H. S. McComb. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1935, 5, 3, 329-336. -- Reviews attempts made since 1823 to persuade the government of the importance of mapping the continent beginning with a geodetic survey.

MacDonald, C. J.

Map production in Australia / by C. J. MacDonald, Manager, Mercury -Walch Pty Ltd. -- *In* Proceedings, Australian Survey Congress (14th : 1971 : Hobart), 193-197. -- Identifies the major Commonwealth and State mapping organisations producing maps in Australia and tells how a commercial firm undertakes printing of maps on behalf of the Tasmanian Department of Lands and also Australian Commonwealth and State mapping departments.

MacDonald, D.

Development of photogrammetry in Australia : period up to June 1945 / D. MacDonald, Royal Australian Survey Corps. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Dec. 1953, 14, 8, 252-256. -- Summary of paper given to the Melbourne Division, Discussion Group on Photogrammetry. -- Deals with the Royal Australian Survey Corps and the Division of National Mapping.

The presentation of relief on maps / D. MacDonald, Royal Australian Survey Corps. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1963, 19, 303-313 : 1 fig. -- Describes the relief portrayal as used in the making of the Royal Australian Survey Corps 1:250 000 topographic map series sheets.

Recent surveying and mapping operations of the Royal Australian Survey Corps / by D. MacDonald. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1963, 19, 404-408. -- Covers mapping operations between 1958 and 1962.

McLachlan, Brian

The formation and direction of the Army Topographic Support Establishment / by Brian McLachlan, Manager, ATSE. -- *In* Technical Papers, Mapping Sciences Conference (1996 : Canberra), 60-64. -- ATSE produces digital topographic data to the Australian Defence Forces. Discusses functions, staffing and output.

McLean, J. B.

A short history of the Trigonometrical Survey of New South Wales / J. B. McLean. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1967, 21, 6, 135-143 : 1 fig.

MacLeod, I. D. G., Fryer, J. G. and Smith, D. R.

A rational approach to automated cartography / by I. D. G. MacLeod, J. G. Fryer and D. R. Smith. -- Canberra, [A. C. T.] : Division of National Mapping, 1973. -- 51 p. various pagings : ill., diags., maps ; 30 cm. -- (Technical report / Australia. Division of National Mapping) ; 16. -- ISBN 0642941114.

McLeod, R.

An automated standard mapping system / R. McLeod, Supervising Drafting Officer, South Australian Department of Lands. -- *In* Cartography (Canberra: Institute of Cartographers), Jan. 1978, 10, 3, 145-149. -- Outlines the system using Automap for diskfile structure.

McLuskey, D., Bryant, F. L. and Cattell, J. R.

Automation in cartography / presented by D. McLuskey, F. L. Bryant and J. Cattell, Royal Australian Survey Corps. -- *In* Technical Papers, Australian Survey Congress (16th : 1973 : Canberra), N1-N11 : 15 fig. -- Describes automated mapping technologies in use or contemplated by the Royal Australian Survey Corps. Covers all stages of mapping from field survey data acquisition to semi-automatic map drawing.

McMaster, C. G.

Division of National Mapping aerodist program / C. G. McMaster. -- Canberra, A.C.T. : Division of National Mapping, 1980. -- iii, 16 p. [20] p. : 5 figs., 1 col. map ; 31 cm. -- (Technical report / Department of National Development & Energy, Division of National Mapping) ; 27. -- Bibliogr. : p. 16. Annexes A-H show work completed, data recording sheets, output, fieldbooks. -- ISBN 0 642 51459 3.

McRae, Heather

Soldier surveyors : a history of 3 Australian Field Survey Company (AIF) 1940-1945 / Heather McRae and the 3 Australian Field Survey Company (AIF) Association. -- [Sunbury, Vic.] : The Association, 1996. -- vi, 154 p. : ill., maps (some col.), portr. ; 30 cm. -- Includes an account of the New Guinea campaign. -- ISBN 064626480X.

Madden, J. D.

Coastline delineation by aerial photography / J. D. Madden. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), June 1978, 29, 2, 76-81 : 2 ill. -- Describes programs undertaken by the Division of National Mapping. The 1:100 000 series a problem.

Manning, John

Accuracy checks on topographic maps / J. Manning. -- *In Technical Papers, Australian Survey Congress* (25th : 1983 : Melbourne), 163-169 : 2 figs. -- 14 refs. -- Standards are set by the National Mapping Council of Australia. The selection of suitably well defined points becomes critical within the statistical statement of the NMC map accuracy definition.

The AUSLIG laser airborne profiling system / J. Manning, AUSLIG. -- *In Technical Papers, Australian Survey Congress* (31st : 1989 : Hobart) and in *National Surveying Conference* (1st : 1989 : Hobart), 1-9. -- 3 refs. -- Vertical control for photogrammetric plotting from aerial photography for 1:50 000 and 1:100 000 provided by airborne profiling techniques. This paper describes airborne laser profiling currently in use by the Australian Land Information Group.

Exploration and Australian cartography in East Antarctica / J. Manning. -- *In Cartography* (Canberra: Australian Institute of Cartographers), Dec. 1989, 18, 2, 2-14 : 8 ill. (4 col.), 1 col map. -- 29 refs. pp. 13-14. -- Describes techniques used by Australia in making topographic maps, identifies future trends.

From aerial photography to remote sensing – a history of aerial photography and space imagery acquisition in Australia / John Manning, Surveying and Land Information Group, Dandenong. -- *In Technical Papers, Australian Cartographic Conference* (7th : 1988: Sydney), 300-318 : 2 figs., 5 tables. -- Bibliogr.: 317-8. -- Developed as a mapping tool during WWI. Traces developments.

Obsolescence – the on-going problem for cartographic information systems. Part 1. The impact of revision on the accuracy of the topographic data / John Manning, Division of National Mapping. -- *In Technical Papers, Australian Cartographic Conference* (6th : 1986 : Melbourne), Session 8, [11-19] : 2 tables. -- 14 refs. -- Identifies accuracy problems due to the increasing use of space imagery for revision purposes and explores the use of combined RMSE approach for 'hard' detail and a classification error matrix as a possible basis for a national standard.

The topographic application of large-format camera space imagery / J. Manning, Division of National Mapping, Melbourne. -- *In Technical Papers, Australasian Remote-sensing Conference* (4th : 1987 : Adelaide), 1-17 : 8 figs., 1 table. -- 17 refs. Large format camera imagery provides an excellent medium for photogrammetric plotting of most planimetric reef features in the Great Barrier Reef for 1:100 000 digital planimetric data base.

Manning, J. and Evans, M.

Revision of medium scale topographic maps using space imagery / J. Manning and M. Evans., Australian Surveying and Land Information Group. -- *In Proceedings, International Society for Photogrammetry and Remote Sensing* (16th : 1988 : Kyoto), 13 p. : 5 tables. -- 6 refs. -- It is feasible to plot 1:50 000 and smaller accuracy specifications from SPOT stereoscopic, panchromatic imagery but the ID of features is limited. ID can be improved significantly if multi spectral imagery is used in conjunction with panchromatic SPOT imagery.

Manning, J. and Menzies, R. W.

Vertical control for Australian topographic mapping / J. Manning and R. W. Menzies, Senior Surveyors, AUSLIG. -- *In Technical Papers, Australian Survey Congress* (30th : 1988 : Sydney), 117-137 : 8 figs. -- 12 refs. -- Reviews historical use of different techniques to provide vertical information for the topographic mapping of the Australian continent.

Melbourne and Metropolitan Board of Works see Middleton, C. E.

Middleton, C. E.

Aspects and trends of photogrammetry in Australia / C. E. Middleton. -- *In Cartography* (Canberra: Australian Institute of Cartographers), Sept. 1955, 1, 2, 56-65 : ill. -- Describes work of the Commonwealth and State agencies in using photogrammetry to produce maps.

Large scale topographical mapping / by C. E. Middleton. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Sept. 1963, 19, 7, 409-416. -- Paper presented to the 5th Survey Congress, March 1960, Melbourne. -- Account of the Melbourne Metropolitan Board of Works 400 feet to an inch series.

Miller, Ian

Australian Land Information Group (AUSLIG) / Ian Miller. -- *In The Globe: journal of the Australian Map Circle, Inc.* (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1989, 31, 28-30. -- Report on current mapping programs and services.

Australian Land Information Group / Ian Miller. -- *In The Globe: journal of the Australian Map Circle, Inc.* (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1990, 33, 45-46. -- Report on reorganisation of map sales shop and availability of new digital products.

Mitchell, J. E.

Crossroads of mapping / J. E. Mitchell, Surveyor-General, Victoria. – *In* The Globe : journal of the Australian Map Circle Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1975, 4, 3-15. – History of the mapping of Victoria from 1836 to 1975.

Montgomery, R. B.

On the need for a topographical survey of Australia / R. B. Montgomery, President, Surveyors Institute. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), May 1928, 1, 51-56. – Compares Australian backwardness in carrying out a topographical survey with other Commonwealth countries.

Morgan, John F.

Land information systems in Australia / J. F. Morgan, Surveyor General, Dept. of Lands and Surveys, Western Australia. – *In* Report of Proceedings, Conference of Commonwealth Surveyors (1979 : Cambridge), Part I, Paper F2, 17 p. – Covers New South Wales, Northern Territory, South Australia and Western Australia, discusses computerisation of manual systems. Plea for standardisation of procedures but relevant to all types of mapping.

Report on the Central North Kimberley region / by John F. Morgan, leader North Kimberley Survey and Mapping Expedition, 1954. – [Perth, W.A.] : Western Australia, Department of Lands and Surveys, 1955. – 69 p. : 49 ill., 1 col. map, fold.

see also Bayliss, R. V.

Survey integration - a Western Australian concept / presented by J. F. Morgan, Surveyor-General of Western Australia. – *In* Technical Papers, Australian Survey Congress (16th : 1973 : Canberra), C1-C4 : 2 figs., 2 maps (1 col.) and *In* Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), 2, 292-299 : 2 figs., 2 maps. – Describes history of development of these systems.

Nairn, Alister and Irwin, Bob

The Australian Spatial Data Infrastructure: its current status and future direction / Alister Nairn and Bob Irwin. – *In* Cartography (Canberra: Mapping Sciences Institute of Australia), June 1997, 26, 1, 1-12. – Bibliogr. : 8 items. -- Two officers of the Australian Surveying and Land Information Group describe status of the infrastructure in which AUSLIG is taking a lead role. Encourages input from all data users to influence the direction in which the infrastructure develops.

National Mapping Council of Australia

Commonwealth of Australia report to the United Nations Third Regional Cartographic Conference for Asia and the Far East, Bangkok (Thailand), 27th October-10th November, 1961. – Canberra, [A.C.T.] : s.n., 1961? – [6] leaves, [6] folded leaves of plates : col. maps ; 30 cm. – “This report is a consolidation of the work carried out under the guidance of the National Mapping Council of Australia”—Introd.

Main resolutions, adopted during the period 1945-1965 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – Canberra, [A.C.T.] : Division of National Mapping, 1965. – 21, 4 p. : 1 fold. map ; 26 cm.

Map catalogue – Australia : national mapping series, December 1976 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Resources, Canberra, ACT, Australia. – Canberra, [A.C.T.] : The Council, 1976. – 76 leaves ; 30 cm. – Accompanied by a microfiche : Map Catalogue – Edition 1 18/5/77 (15 x 11 cm.)

Recommended procedures for the interchange of small and medium scale digital vector topographic mapping data / prepared by the National Mapping Council of Australia. – [Canberra, A.C.T.] : National Mapping Council of Australia, 1985. – 9 p. ; 30 cm. – (Special publication (National Mapping Council of Australia) ; 12. -- ISBN 0642516421. – A standard for digital mapping.

Report on work completed during the period 1945-1965 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – Canberra, [A.C.T.] : The Council, 1966?. – 2, [42] leaves, chiefly maps ; 26 cm. – Processed. -- Includes: Australia. Mapping, 1945-1965.

Report on work completed during the period 1945-1975 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Resources. – Canberra, A.C.T. : Division of National Mapping, 1976. – [2] leaves, 97 leaves of col. maps ; 30 cm. – Includes: Australia. Mapping, 1945-1975. Papua New Guinea. Mapping, 1945-1975. Antarctic Mapping, 1945-1975.

- Resolutions adopted 1966-1975 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of Minerals and Energy, Canberra, A.C.T., Australia. – Canberra, A.C.T. : The Department, 1975. – 25 leaves ; 30 cm.
- Resolutions in force June 1986 / National Mapping Council of Australia. – [Canberra, A.C.T.] : The Council, [1986?] – 7 p., 12 leaves ; 22 cm. – Caption title. Cover title: Draft NMC resolutions. Includes index. – Deals with government policy and standards for surveying and cartography in Australia.
- Standard definition of terms used in photogrammetric surveying and mapping / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of the Interior. – Canberra, [A.C.T.] : [s.n.] , 1954. – 47 p. ; 33 cm.
- Standard definition of terms used in photogrammetry, revised March 1974 / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of Minerals and Energy. – Canberra, [A.C.T.] : National Mapping Council of Australia , 1974. -- 87 p. ; 30 cm. – (Special publication (National Mapping Council of Australia) ; 5. – ISBN 064290479.
- Standard topographic map symbols / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – Canberra, [A.C.T.] : National Mapping Council of Australia, 1959. – 12 leaves : ill. (some col.) ; 34 cm.
- Standard topographic map symbols / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – 2nd ed. -- Canberra, [A.C.T.] : National Mapping Council of Australia, 1959. – 11 leaves ; 34 cm.
- Standard topographic map symbols / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – Rev. ed. -- Canberra, A.C. T. : National Mapping Council of Australia, 1962. – 11 leaves : ill., 34 cm. – “NMP/62/072”
- Standard topographic map symbols / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of the Interior. – Canberra, [A.C.T.] : National Mapping Council of Australia, 1953. – 14 leaves : ill. (some col.) ; 34 cm. – “NMO/53/11.4”
- Standards of map accuracy / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of Minerals and Energy, Canberra, A.C.T., Australia. – 2nd ed. – [Canberra, A.C.T.] : National Mapping Council of Australia, 1975. – [1] leaf ; 30 cm. – (Special Publication / National Mapping Council of Australia ; 3). – First published in 1953. Gives acceptable limits at various scales.
- Standards of map accuracy / prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of National Development. – Canberra, [A.C.T.] : National Mapping Council of Australia, 1953. – [1] leaf ; 30 cm. – (Special Publication / National Mapping Council of Australia ; 3).
- Standards of National Mapping Council of Australia / [prepared on behalf of the National Mapping Council of Australia by the Director of National Mapping, Department of the Interior, Canberra, A.C.T.]. – Canberra, [A.C.T.] : National Mapping Council of Australia, 1953. – v. (various pagings) : ill. ; 36 cm. – Contains: Standard topographic map symbols – Standards of Map accuracy -- Standard specifications for vertical aerial photography -- Standard specifications for horizontal and vertical control.
- Statement of activities / National Mapping Council of Australia. – Canberra, [A.C.T.] : The Council, 1945-1986. – Contains annual reports of the Division of National Mapping.
see also Johnston, F. M., Lambert, B. P., Lines, J. D. and Spencer, P. A.
- National Mapping Council of Australia. Meeting**
- National Mapping Council of Australia ... meeting, held at ... , September 1945-1987. -- Issued in parts: 1, 2, 2A, 3, 3A, 3B, 3C, 3D. -- Title includes the number of the meeting, the venue and date held. Venue varies. The first meeting was held 18th September 1945 and thereafter six monthly until 1948. In 1949 became an annual meeting. No meeting was held in 1951. Includes:
- Report of proceedings. – 1945-1949. -- ill., maps ; 27 x 34 cm. -- Later title: Summary of proceedings. (1950-1958). Succeeding title: Reports from members and other annexures, Part 2. (1959-1972). Succeeding title: Reports by council members. Part 2. (1973-1986). Succeeding title: Summary of Proceedings. Part 1. – Title includes the dates of the programme.
- Commonwealth and State mapping programme from.... Part 2A. – v. chiefly maps ; 27 x 34 cm. – Title includes the dates of the programme, venue of meeting varies. Description based on 17th 1959.
- Consolidated forecasts of topographic mapping, part 3. – chiefly maps ; 30 x 42 cm. -- Also titled: Proceedings, Part 3. Description based on 1986. Former titles: National Mapping Council of Australia. Meeting. Technical Sub-Committee summary of proceedings, part 3. Also titled: National Mapping Council of Australia. Technical Sub-Committee. Meeting. Proceedings. Part 3. Description based on 1980 issue. Also titled : Proceedings. Part 3 / National Mapping Council of Australia,

Technical Sub-Committee. Description based on 1974. Part 3 is a merger of the same meeting's Technical Sub-committee proceedings: Part 3A (General), Part 3B (Field surveys), Part 3C (Aerial photography and photogrammetry) and Part 3D (Cartography).

National Mapping Council of Australia. Specifications Working Party

Report 1:50 000 and 1:25 000 topographic map series / by the Specifications Working Party.

[Canberra, A.C.T.] : The Working Party, 1973. – v. (various pagings) : ill., (some col.), maps ; 30 cm. – “Accompanies the Draft Specifications for 1:50 000 and 1:25 000 mapping ” – [Introd.]. – “REGT/MISC/0694A”. Contains topographic map specifications.

National Mapping Council of Australia. Technical Advisory Committee. Meeting

Report / National Mapping Council of Australia, Technical Advisory Committee, ... Meeting. –

[Belconnen, A.C.T.] : National Mapping Council of Australia, 1984-1986. – v., maps ; 30 cm.

National Mapping Council of Australia. Technical Sub-Committee. Meeting

Report / National Mapping Council of Australia Technical Sub-Committee. – Melbourne, Vic. : The Council, 1948-86?. – v. ; 34 cm. – Title includes the number of the meeting, the venue and the date held. Venue varies. The first meeting was held in 1948. Early issues are processed. Later titles: Summary of proceedings ... (1950-1958). Succeeding title: Technical Sub-Committee reports, Part 3. (1959-1965?) Later split into parts 3A, 3B, 3C, and 3D as : Technical Sub-Committee proceedings. Part 3A (General) 1966-73 ; Technical Sub-Committee proceedings. Part 3B (Field Survey) Part title varies slightly ; later issues called: (Control surveys) 1966-73 ; Technical Sub-Committee proceedings. Part 3C (Aerial photography and photogrammetry) 1966-73 ; Technical Sub-Committee proceedings. Part 3D (Cartography) 1966-73 ; All part 3s merged to become Proceedings. Part 3. Variant title: Technical Sub-Committee summary of proceedings, part 3. (1974-1980). Succeeding title: National Mapping Council of Australia. Meeting. Consolidated forecasts of topographic mapping, part 3. **See above under National Mapping Council of Australia. Meeting.**

National Mapping Council of Australia. Working Party on the Cost Benefit of Using Remotely Sensed Satellite Data for Mapping

Final report / NMC Working Party on the Cost Benefit of Using Remotely Sensed Satellite Data for Mapping. – [Canberra, A.C.T.] : National Mapping Council of Australia, 1984. – 46 p. in various pagings : ill., maps ; 30 cm. – Bibliogs.

New South Wales. Department of Conservation and Land Management

Annual report / Department of Conservation and Land Management. – Sydney : The Department, 1991/92-1993/94. – 2 v. ; 29 cm. – Contains details of map production. -- In March 1995 the New South Wales Department of Land and Water Conservation was created incorporating the former agencies of the Department of Conservation and Land Management.

New South Wales. Department of Information Technology and Management

Annual report / Department of Information Technology and Management. – Sydney : The Department, 1998/99 - . – various pagings ; 29 cm. – Contains details of map production.

New South Wales. Department of Land and Water Conservation

Annual report / Department of Land and Water Conservation. – Sydney, The Department, 1994/95-1996/97. – 2 v. ; 29 cm. – Contains details of map production.

New South Wales. Department of Lands

Annual report[s] on the Trigonometrical Survey of New South Wales / Surveyor General. – *In* New South Wales. Department of Lands. Annual report[s]. – Sydney, Govt. Printer, 1881-1912, 1914-. – These extracts are usually 3 or 4 pages.

Catalogue of maps and plans published by the Department of Lands, Sydney, New South Wales. – [Sydney] : Govt. Printer, 1891-

Descriptive catalogue ; maps, photomaps & aerial photographs / Department of Lands. – Sydney : The Department, 1967. – 13 p. ; 23 cm. – Includes three col. maps and three black and white showing different products.

Extract from Annual Report, Lands Department, 1913, [followed by] Annual report by Surveyor-General, and Report on Trigonometrical Survey. – Sydney : William Applegate Gullick, Government Printer, 1914. – 16 p.

Report of the Department of Lands. – Sydney, The Department, 1880–1981. – [Sydney] : Govt. Printer, 1881-1982. – v. (various pagings) : ill. ; 25 cm. – Ceased with the 101st report in 1981. Merged with New South Wales. Department of Local Government. Report of the Department Then with the Department of Local Government and Lands. Annual report. Also published as a Parliamentary Paper. Other title : Annual report. -- Includes reports of the Land Information Centre

- relating to mapping activities. In 1991 the Department of Conservation and Land Management was created incorporating the former agencies of the Department of Lands.
- Report on measurement of base of verification to the Surveyor General / W. J. Conder, Superintendent of Trigonometrical Surveys, 20th January 1881. – *In* Appendix to Annual report of the Department of Lands 1881 *and In* New South Wales. Parliament. Legislative Assembly. Votes and Proceedings. 1881. – PP No. 1/81. – 4 p.

- New South Wales State Mapping Advisory Committee**
New South Wales mapping and spatial data. – [Sydney?], N.S.W. : NSW State Mapping Advisory Committee, -2000
New South Wales mapping and spatial data / State Advisory Mapping Committee. – [Sydney, N.S.W.] : N.S.W. State Mapping Advisory Committee, 1993-2000. – various pagings : maps ; 29 cm. – Index maps.
Report on mapping and digital spatial data collection activities in NSW 1990/91. – [Bathurst, N.S.W.] : New South Wales State Mapping Advisory Committee, [1991?] – 22 p., [12] fold. leaves of plates : maps ; 30 cm.
Reports submitted at the ... meeting / N.S.W. State Mapping Advisory Committee. – [Sydney, N.S.W.] : [The Committee], 1961-2000. – v. ; 33 cm. – Description based on the 5th, 1961.
Summary of proceedings 1957-1960 ; Minutes (of annual meetings) 1961-2000 / The Committee. – Sydney, The Committee, 1961-2000. -- Annual ; 33 cm.
- New South Wales. Surveyor-General's Department**
Annual report / Surveyor-General's Department. – Bathurst, N.S.W. : The Department, 1997/98. – 100 p. ; 29 cm. – The Surveyor General's Department was created Jan 1998 as a merger of the Office of the Surveyor General and the Land Information Centre and abolished April 1999. Its functions were transferred to the Department of Information Technology and Management.

Catalogue of maps and plans printed and published by the Surveyor General's Department, Sydney, New South Wales. – [Sydney] : Govt. Printer, January 1883. Another issue for 1890. – v. ; 25 cm. – Title varies slightly. Later issues published by the Department of Lands. Has Supplements.

Report from the Commissioners Appointed to inquire into the Surveyor General's Department, with Minutes of Evidence and Appendix. – Sydney: Govt. Printer, 1855. – v. 1., 15 p. , v. 2., 87 p. + 31 p. – vol. 1. Report. – vol. 2. Minutes. – vol. 3. Appendix.

Northern Territory. Department of Lands. Mapping and Information Division

Statement of mapping activities / Mapping and Information Division, Northern Territory of Australia. – [Darwin, N.T.] ; Dept of Lands, 1986- . – v. : maps ; 30 cm. – Previously issued by the Survey and Mapping Division, Department of Lands. -- ISSN: 0819-2367.

Northern Territory. Department of Lands. Survey and Mapping Division

Northern Territory map index, 30th June, 1983 / Survey and Mapping Division. – [Darwin : Department of Lands, Survey and Mapping Division], 1983. – 51 leaves : col. maps ; 21 cm. – Contains map indexes to 1:500, 1:1 000, 1:2 400, 1:2 500, 1:5 000, 1:10 000, 1:500 000 series maps and alphabetical lists of map sheet names.

Statement of mapping activities. – [Darwin, N.T.] : Survey and Mapping Division, Department of Lands. –v. ; 29 cm. -- Description based on 1982-1983. Later title: Northern Territory. Mapping and Information Division. – ISSN 0819-2367.

Northern Territory. Department of Lands and Housing

Northern Territory map index / [Survey and Mapping Division]. – Darwin, NT. : Department of Lands and Housing. – v. ; 29 cm. – From 1982 issued by the Department of Lands, Survey and Mapping Division. – Description based on 1978

Northern Territory. Department of Lands and Housing. Mapping and Information Division.

Northern Territory index to large scale mapping 1987 / produced by the Department of Lands and Housing, Mapping and Information Division. – Darwin, N.T. : Department of Lands and Housing, Mapping and Information Division, 1987. – 1 fold. broadsheet : maps ; 21 cm. – Contains index maps to the 1:25 000, 1:10 000, 1:5 000 and 1:2 500 series both topographic and cadastral.

Northern Territory. Department of Mines and Energy

Cross-index of 1:100 000 maps of the Northern Territory. – Darwin, N.T. : Department of Mines and Energy, [n.d.]. – 41 leaves : 2 maps ; 21 cm. – Contains three listings arranged by DME sheet number, alphabetically by sheet name and by NATMAP number. Each listing is cross referenced to the other two.

Northern Territory. Land Information Division

Map and product catalogue November 1995 / Land Information Centre. – [Darwin, N.T.] : Department of Lands, Planning and Environment, 1995. – 7 p. ; 30 cm. – Contains lists of maps, guides, street directories and globes from many sources, including Australian and overseas.

Northern Territory see also Australian Survey Office, Helyar, Geoffrey, Hillier, N. R. J., Hunt, J. F.

Oaten, Greg

Digital map data / Greg Oaten. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1993, 38, 1-6 : 2 figs. – Discusses the different types of digital data used by the Royal Australian Survey Corps.

O'Donnell, P. W.

Bathymetry – the decade ahead / P. W. O'Donnell. -- *In* Technical Papers, Australian Congress of Surveying and Cartography (1st: 1982 : Canberra), and Australian Cartographic Conference (5th : 1982 : Canberra), 81-83. – 10 refs. -- The status of the Division of National Mapping's bathymetric surveying of Australia's continental shelf is briefly examined and the trends which will affect future production are discussed.

Papua New Guinea see Australia. Army. Royal Australian Survey Corps, Australia. Division of National Mapping, Commonwealth Survey Committee Meeting, Johnson, H. A., National Mapping Council of Australia, Thomson, W. A.

Paxton, Ian

Digital developments at N[ew] S[outh] W[ales] Land Information Centre / Ian Paxton. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1995, 43, 68-69.

Payne, John K. and Lawler, Peter G.

Revision of 1:1 000 000 scale topographic maps using satellite imagery / John K. Payne, Division of National Mapping and Peter G. Lawler, Division of National Mapping, Department of Resources

and Energy. -- *In* Technical Papers, International Cartographic Association Conference (12th : Aug. 1984 : Perth, Australia), 2, 13-22 : 1 fig. -- 4 refs. -- Paper outlines the procedure used for updating maps.

Percival, A.

The need for a geodetic survey of Australia / A. Percival, Director of Commonwealth Lands and Surveys. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Jan. 1928, 1, 49-61. -- Includes two pages of discussion. An introductory paper to the state of geodetic survey prior to the establishment of a Commonwealth national topographical agency.

Poate, F.

The trigonometrical survey of New South Wales / F. Poate. -- *In* The Surveyor (Sydney: Institution of Surveyors, New South Wales), May 31, 1913, XXVI, 95-103 and *In* Aug. 30, 1913, XXVI, 169-176 and *In* Sept., 1913, XXVI, 193-199.

Prescott, Dorothy F.

Review of John D. Lines *Australia on Paper: The story of Australian mapping* / by Dorothy F. Prescott -- *In* Historical Records of Australian Science (Canberra: Australian Academy of Science), 9, 3, 300-302.

PSMA Australia Limited

Annual report /PSMA Australia Ltd. -- Deakin, A.C.T. "PSMA Australia, 2002- . . . - v. : ill. ; 20 cm. -- The annual report of the Public Service Mapping Agencies. -- ISSN 1447-3453.

Queensland. Department of Geographic Information

Annual report of the Department of Geographic Information / Department of Geographic Information. -- Brisbane, Qld. : The Department, [1988/1989] -- 2 v. : maps ; 30 cm. -- Former title: Queensland. Department of Mapping and Surveying. Annual report 0157-0218. -- Later titles: 1) Surveyors Board of Queensland. Annual report. 2) Queensland. Department of Lands. Annual report. 3) Queensland. Lands Department. Annual report of the Land Administration Commission 4) Queensland. Department of the Valuer General. Annual report. 5) Queensland. Department of Freehold Land Titles. Annual report 1034-3520. -- Contains reports on mapping and surveying. --- ISSN 1 032 7320.

Queensland. Department of Lands

Catalogue of Queensland maps and land information. -- [Brisbane, Qld.] : Department of Lands, 1991. -- v. : ill., maps ; 30 cm. -- Contains Part A. Maps and aerial photography. -- Former title: Queensland. Department of Mapping and Surveying. Catalogue of Queensland Maps 0811-3793. -- Later title: Queensland. Department of Lands. Queensland land information directory. -- ISSN 1038-0973.

Queensland. Department of Mapping and Surveying

Annual report / Department of Mapping and Surveying, Queensland. -- Brisbane, [Qld.]: Department of Mapping and Surveying, 1976-[1987]. -- 10 v. : maps ; 34 cm. -- Former title: Queensland. Survey Office. Annual report of the Surveyor-General. -- Later title: Queensland, Department of Geographic Information. Annual report ... 1032-7320. -- Contains reports on surveying and mapping.

Catalogue of Queensland maps / prepared by the Department of Mapping and Surveying. -- [Brisbane, Qld.] : Queensland Surveying and Mapping Advisory Council, 1983-1988. -- v. : ill. ; 30 cm. -- Former title: Queensland Surveying and Mapping Advisory Council. Pictorial index of Survey and mapping activities to 30th June 0157-8138. -- Later title: Queensland. Department of Lands. Catalogue of Queensland maps and land information 1038-0973. -- Shows coverage of Queensland maps at various scales. -- 0811-3793.

Orthophotomapping for the market place: the Queensland experience. -- *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Pacific (10th : 1983 : Bangkok), v. 2, 228-240 : 2 figs. -- The advantages of OPMs are maximised in the larger scale product, 1:10 000 or larger, with minimal enhancement. Procedure for production described. -- E/CONF.75/L.46 and E/CONF.75/L.46/Add.1.

Pictorial index of survey and mapping activities to 30th June / prepared and published by the Department of Mapping and Surveying and Office of the Surveyor General. -- Brisbane, Qld. : The Department, 1979-82. -- 4v. : maps ; 30 cm. -- At head of title: Queensland Surveying and Mapping Advisory Council. Also issued with same title as a microfiche.

Queensland cost sharing mapping scheme / Dept. of Mapping and Surveying. -- *In* Technical Papers, Australian Congress on Surveying and Mapping (1st : 1982 : Canberra) and Australian Cartographic Conference (5th : 1982 : Canberra), 69-70

Technical bulletin. – [Brisbane, Qld.] : Department of Mapping and Surveying. Office of the Surveyor-General, 1975- . – v. ; 33 cm. – Each issue has a distinctive title. – No. 1-

Queensland Government Map Shop

Queensland sunmap guide. – [Brisbane, Qld.] : Sunmap Centre, Queensland Government Map Shop, 1986. – 1 col. fold. broadsheet : maps ; 24 cm. – Contains index maps to topographic, tourist, orthophoto, cadastral, and parks maps as well as maps of the Mines Department and charts of the Marine and Harbours Department.

Queensland. Lands Department

Sunmap guide to topographic maps, Queensland, Australia. – [Brisbane, Qld.] : Department of Lands, 1994. – Ed. 3. May 1994. – 1 col. fold. broadsheet : maps ; 21 cm. – Contains index maps to the 1:1 000 000, 1:250 000, 1:100 000, 1:50 000, 1:31 680, 1:25 000 and 1:10 000 scale series.

Queensland. Survey Office

Annual report of the Surveyor-General. – Brisbane, [Qld.] : Survey Office, 1975. – v. : maps ; 34 cm. – Later title: Queensland. Department of Mapping and Surveying. Annual report. – Contains reports on surveys.

Descriptions, lists and diagrams of published maps and air photos, Queensland / published by direction of the Surveyor General. – Ed. 2. 1975. – [Brisbane, Qld.] : Survey Office, 1975. – 1 col. fold. broadsheet : maps ; 24 cm. -- Contains index maps to cadastral and topographic map series. Scales for topographic series at 1:25 000, 1:31 680, 1:50 000 and 1:100 000.

Queensland Surveying and Mapping Advisory Council

Catalogue of Queensland maps to June 1985 / prepared by Department of Mapping and Surveying. – Brisbane, Qld. : Queensland Surveying and Mapping Advisory Council. – v., 280 p. : col. maps. – Covers all departments producing maps in the state. – ISSN 0811 3793.

Report of surveying and mapping activities / prepared [by] Department of Mapping and Surveying. – Brisbane, Qld. : Queensland Surveying and Mapping Advisory Council, 1978- . v., 112 p. : 1 map ; 30 cm. -- Annual. – 1985 issue available on monochrome micro fiche. At head of title: Queensland Surveying and Mapping Advisory Council. Description based on 1984-1985 issue. Covers all departments producing maps. – ISSN 0157 812X .

Quilty, Patrick

Surveyors and their products – mapping in the Antarctic / Patrick Quilty. –*In* Technical Papers, Australian Survey Congress (39th : 1997 : Launceston), 1-11. – 19 refs. – Provides historical perspectives on the history of surveying and mapping and outlines problems for surveyors and mapmakers.

Quinlan, Cecil Verdun

Australian map makers : born together the R. A. A. F. and Australian Survey Corps are first cousins. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1943, 9, 7, 266-269 : 2 ill. – Early history of the Corps and first surveys in Victoria at 1:63 360 and 1:31 680.

Raisbeck, J. J.

A short history of the military survey of Australia, 1907-36 / J. J. Raisbeck. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1937, 6, 7, 334-337 : 2 ill.

Rassaby, H. S.

How New South Wales was mapped in a generation : a saga of achievement / H. S. Rassaby. -- *In* Cartography (Canberra: Australian Institute of Cartographers), June 1994, 23, 1, 19-45 : ill., maps.

Reilly, S. E.

Soldiers and surveyors / S. E. Reilly. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1983, 31, 5, 315-326. – 16 refs. Pages 320-326 on Australia.

Richardson, Jack E.

Review of Australia's topographic mapping facilities : report to the Chairman of the Public Service Board, Canberra, July 1986. – Canberra, [A.C.T.] : AGPS, 1986. – v. – Considers the current and planned Commonwealth topographic programme; the mapping programmes of the States; the resources available to the Division of National Mapping and the Royal Australian Survey Corps; and the cost structures of these two organisations.

Rimington, G. R. L., McCarthy, F. E. and Robinson, R. A.

Application of Shoran to Australian mapping / G. R. L. Rimington, F. E. McCarthy and R. A. Robinson -- *In* Cartography (Canberra: Australian Institute of Cartographers), Dec. 1954, 1, 7-20 : ill., 10 fig. – Australian use as adopted by the National Mapping Office.

Robin, G. A.

Australia an unmapped continent : bearing on national defence / G. A. Robin. -- *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1933, 4, 476-478. -- Comments on areas mapped and sheet coverage after twenty years of defence mapping. The pressing need to rouse public conscience of the necessity for maps for defence.

Roelse, A., Granger, H. W. and Graham, J. R.

The adjustment of the Australian Levelling Survey 1970-71 / Roelse, E., Granger, H. W. and Graham, J. W. -- Canberra, A. C. T. : Department of National Development, 1975. -- 2nd ed. -- 81 p. various pagings : ill., maps (some col.) ; 29 cm. -- (Technical report. Australia. Division of National Mapping) ; 12. -- Bibliog.: p.80-81.

Rohner, P.

Die Central Mapping Authority (CMA) ; die Landestopographie von New South Wales, Australien / P. Rohner *In Vermessung Photogrammetrie Kulturtechnik = Mensuration Photogrammétrie Génie rural* (Zurich) Jan. 1980, 80, 1, 7-10 : 2 ill., 1 map. -- Covers the period 1947-78 of the CMA.

Royal Australian Air Force

Aeronautical chart catalogue including topographical survey maps / prepared under the direction of the Department of Defence (Air Force Office). -- 2nd ed. -- Melbourne : Aeronautical Information Section, Royal Australian Air Force, [1971-88]. -- v. -- (loose leaf) map indexes, some folded ; 30 cm. -- Includes 7 sections in which are Section 4 . Topographic charts and Section 7. Topographic survey maps. -- Section 7 contains alphabetical lists of map sheets and map indexes.

Flight information publication. Planning Part 4. Aeronautical chart catalogue incorporating chart amendment document. -- [Melbourne : Aeronautical Information Section, Royal Australian Airforce]. -- Annual. -- v. ; 30 cm. -- Updating publication for the Topographical chart section includes series at 1: 2 million, 1:1 million, 1:500 000 and 1:250 000 scales. Indexes and alphabetical chart listings.

Royal Australian Engineers see Vance, T. A.

Royal Australian Survey Corps see Australia. Army. Royal Australian Survey Corps

Sargeant, Kalen

Map completion techniques for small scale mapping -- The National Topographic Map Series 1: 100 000 and 1: 250 000 / Kalen Sargeant. -- *In Surveying Australia* (Canberra: Australian Surveying Association), Sept. 1984, 6, 3, 23-25. -- Paper presented to the 9th National Surveying Conference. -- Deals with use of aerial photography for updating series mapping by the Division of National Mapping.

Sargent, T.C.

The Royal Australian Survey Corps, 1915-1990 / by Clem Sargent. -- [Canberra, A.C.T. : Royal Australian Survey Corps], 1995. -- [Rev. ed.]. -- 23 p. : ill., col. maps ; 30 cm. -- Previously presented as a paper to the 1990 Australia War Memorial History Conference and published in *Sabretache*, the journal of the Military Historical Society of Australia in 1990 and in *The Australian Surveyor*, December 1994, p. 275-289.

Scientific Committee on Antarctic Research

Antarctica : a catalogue of maps and charts / Scientific Committee on Antarctic Research. -- 5th ed. -- Belconnen, A.C.T. : Australian Surveying and Land Information Group, Department of Administrative Services, 1988- . -- v. [loose leaf] : ill., maps ; 32 cm. -- ISBN 0 642 5161 1.

Catalogue of maps and charts of Antarctica / compiled on behalf of Special Committee on Antarctic Research. -- Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1960. -- [3] leaves, 69 leaves ; 21 x 34 cm.

Catalogue of topographic maps, aeronautical and hydrographic charts of Antarctica / compiled on behalf of Scientific Committee on Antarctic Research. -- 1st ed. -- [Canberra, A.C.T. : Division of National Mapping, Department of National Development], 1961. -- 90 p. : tables ; 22 x 33 cm. -- Kept up to date by Amendment sheets (processed).

Catalogue of topographic maps, aeronautical and hydrographic charts of the Antarctic / Scientific Committee on Antarctic Research, Working Group on Geodesy and Cartography. -- 2nd ed. -- [Canberra, A.C.T. : Division of National Mapping, Department of National Development], 1964. -- 114 p. ; 22 x 33 cm. -- Kept up to date by Amendment sheets. Processed.

Catalogue of Antarctic maps and charts / compiled on behalf of the Scientific Committee on Antarctic Research. – 4th ed. – Canberra, [A.C.T.] : Division of National Mapping, Department of Minerals and Energy, 1974. – v. (various pagings) ; 23 x 36 cm. – Bibliogs. Limited distribution.

see also International Council of Scientific Unions. Working Group on Geodesy and Cartography for further issues of the catalogue.

Scientific Committee on Antarctic Research. Working Group on Geodesy and Cartography

Proposed standard symbols for use on maps of Antarctica / compiled on behalf of the Special Committee on Antarctic Research. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1960. – 8 p. ; 25 cm.

Standard symbols for use on topographic maps of Antarctica / as approved by the Special [i.e. Scientific] Committee on Antarctic Research. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1962. – 10 p. : diags. (part col.) ; 26 cm.

Sear, W. J.

One in a million / W. J. Sear, Chief Drafting Officer, Division of National Mapping. -- *In Cartography* (Canberra: Australian Institute of Cartographers), 1964, 5, 3&4, 55-58. – Reviews the history of various maps published by the Division at the 1:1 000 000 scale.

Topographic map drawing / W. J. Sear, Chief Cartographer, Division of National Mapping. – *In Australian Surveyor* (Sydney: Institution of Surveyors, Australia), Dec. 1958, 17, 239-251: 9 figs. – A lecture delivered to the Institution of Surveyors (N.S.W. Division) giving a description of the methodology employed in the Division of National Mapping.

Sebert, L. M.

Review of J. D. Lines 'Australia on Paper' / by L. M. Sebert. – *In Geomatica* (Ottawa: Canadian Institute of Geomatics), 1995, 49, 2, 234-237. – Review concentrates on the similarities and differences between the mapping programmes of Australia and Canada.

Seidel, P.

Levelling in New South Wales since WWII / P. Seidel. – *In Colloquium on Control for Mapping by Geodetic and Photogrammetric Methods*, University of New South Wales, May 22-24, 1967, Paper 8, 135-145 : 1 fig.

Selkirk, Patricia and Adamson, Don

Mapping Macquarie Island / Patricia Selkirk and Don Adamson. -- *In The Globe* : journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1995, 41, 53-67: 4 figs, 3 tables. – Bibliogr. p. 66-67. – Describes problems of mapping this island encountered by Australian Surveying and Land Information Group and Tasmanian Department of Environment and Land Management surveyors.

Serisier, J. M.

Survey administration in Queensland – a decade in retrospect / J. M. Serisier, Surveyor-General and K. J. Davies, Director, Division of Technical and Administrative Services, Department of Mapping and Surveying. – *In Technical papers, Australian Survey Congress* (23rd : 1981 : Sydney), 159-164.

Skitch, Robert F.

Mapping Australia : a national overview / by Robert F. Skitch. – *In Cartography* (Canberra: Australian Institute of Cartographers), June 1991, 20, 1 : Supplement (July 1991), 18-29 : 4 maps. – Part of Australian Institute of Cartographers report to the International Cartographic Association. Report on status of topographic mapping for 1:100 000, 1:50 000 and 1:25 000 scales and digital topographic data.

Mapping Australia : an historical overview / by Bob Skitch. – *In Cartography* (Canberra: Australian Institute of Cartographers), March 1987, 16, 2 : Supplement (Aug. 1987) 9-19 : 7 maps. – Part of Australian Institute of Cartographers report to the International Cartographic Association. Report on status of topographic mapping for 1:250 000, 1:100 000, 1:50 000 and 1:25 000 scales.

Mapping Australia : national overview / by Robert Skitch et al. – *In Cartography* (Canberra: Australian Institute of Cartographers), June 1995, 24, 1 : Supplement (July, 1995), 13-19. – Part of Australian Institute of Cartographers report to the International Cartographic Association. Report on status of topographic mapping for 1:100 000, 1:50 000 and 1:25 000 scales and digital topographic data.

Topographic mapping: where do we go from here? / Robert F. Skitch, Department of Mapping and Surveying, Queensland. -- *In The Globe* : journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1987, 28, 37-50 : 7 maps. – Includes Appendix with 7 index maps showing status of mapping for Australia at scales from 1:25 000 to 1:250 000 by federal and state mapping authorities.

Skitch, R. F. and Lambert, M. S.

Queensland's topographic map series / R. F. Skitch and M. S. Lambert. -- *In* Cartography (Canberra: Australian Institute of Cartographers), June 1990, 19, 1, 61-65 : 2 figs., 1 col map. -- Describes the 1:25 000 mapping program.

Smalley, G. R.

Report to the Colonial Secretary recommending commencement of geodetic survey / G. R. Smalley, Government Astronomer. -- *In* New South Wales. Parliament. Legislative Council, 18 August, 1865. -- 2 p.

Base line for triangulation of New South Wales (Progress Report) / G. R. Smalley. -- *In* New South Wales. Parliament. Legislative Council, 4 June, 1869. -- 2 p. and 29 September, 1869. -- 2 p.

Smith, C. J. H.

The suitability of satellite imagery for revision of TOPO-250K GEODATA / C. J. H. Smith. -- *In* Proceedings, Australasian Remote Sensing Conference (7th : Melbourne : 1994), 3, 139-144.

South Australia. Department of Environment and Natural Resources

Mapping products / Department of Environment and Natural Resources, Resource Information Group. -- Adelaide, S.A. : The Department, 1994. -- v. (loose leaf) 19 p. : col. ill., col. maps. -- Contains leaflets describing map numbering and index maps to topographic, orthophoto, cadastral and digital map series availability.

see under **South Australia. Department of Lands for earlier issue**

South Australia. Department of Lands

Mapping products / Department of Lands, South Australia. -- Adelaide, S.A. : The Department , 1984. -- v. (loose leaf) 25 p. : col. ill., col. maps ; 30 cm. -- Contains index maps to standard topographic series including national series at 1:250 000 and 1:100 000 scales. -- Another issue for 1987.

see under **South Australia. Department of Environment and Natural Resources for later issue**

South Australia. Department of Lands. Mapping Branch

Index of maps / Department of Lands, Mapping Branch. -- Adelaide, South Australia : Department of Lands, 1969-73? -- Annual.

Mapping products / S. A. Department of Lands, Mapping Branch. -- Adelaide, S.A. : The Department, 1991. -- v. (loose leaf) 2 p., 20 p. : col. ill., col. maps ; 30 cm. -- Contains leaflets describing map numbering and index maps to topographic, orthophoto, cadastral and digital sheet availability.

see also **Lores, Peter, Kennedy, G.H.C., Larden, D. R., McLeod, R. ; Vial, A. J. and Wildon, J.**

[Report of a public meeting on] The need for a Geodetic and Topographical Survey of Australia. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), March 1931, 3, 30-31.

Spencer, G. R.

State mapping requirements, topographic : report / by G. R. Spencer. -- [Melbourne?] : Department of Crown Lands and Survey, Victoria, 1973. -- v. (unpaged) ; 30 cm.

Spencer, P. A.

Administrative history of the Division of National Mapping / P.A. Spencer. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1989, 34, 7, 674-681. -- Discusses also the National Mapping Council of Australia and the Advisory Committee on Commonwealth Mapping (ACOCM). -- Bibliog.

Stackhouse, John

The mapping of our continent / John Stackhouse. -- *In* Bulletin (Sydney), 1982, 14 Sept., 76-77,79.

Steed, Jim

The geocentric datum of Australia / Jim Steed, AUSLIG. -- *In* The Globe : journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1998, 47, 5-9:

ill. – 6 refs. -- Describes the change over from the Australian Geodetic Datum (AGD) to the Geocentric Datum of Australia (GDA), reasons, effects and differences between the two systems.
see also Allman, J. S. and Steed, J. B.

Stone, N. J.

Digitization of cartographic data using raster scanning – the RASvy experience / N. J. Stone, Warrant Officer Class 2, Army Survey Regiment, Bendigo. -- *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), Session 6, [2-10] : 1 fig. -- The RASvy has had Automap 2 for years. This paper describes the problems and lessons learned.

Tasmania. Department of Environment and Planning. Mapping Division

Production report 1990-1992. – 5 v. ; col. maps (fold) ; 30 cm. – Former title: Tasmania. Department of Environment and Planning, Mapping Division. Six monthly report. – Later title: Tasmania. Department of Environment and Planning. Land Information Bureau. Production report.

Six monthly report / Department of Environment and Planning, Mapping Division. – [Hobart, Tas.] : The Department, 1989. – v. ; col. maps (fold) ; 30 cm. – Former title: Tasmania. Department of Lands, Parks and Wildlife. Mapping Division. Annual report. – Later title: Tasmania. Department of Environment and Planning. Mapping Division. Production report. – Maps produced.

Tasmania. Department of Lands and Surveys

Department of Lands and Surveys, report for – [Hobart, Tas.] : Govt. Printer., -1935. – v ; 33 cm. – Also issued as a parliamentary paper. – Later title: Tasmania. Department of Lands and Surveys. Report of the Secretary for Lands for the year – Reports on surveying and land use.

Report of the Secretary for Lands for the year – [Hobart, Tas.] : Govt. Pr. , 1936-1939. – 3 v. ; 33 cm. – Former title: Tasmania. Department of Lands and Surveys. Department of Lands and Surveys report for – Later title: Tasmania. Department of Lands and Surveys. Report of the Surveyor-General and Secretary for Lands for the year – Reports on surveying and land use.

Report of the Surveyor-General and Secretary for Lands for the year... . – [Hobart, Tas.] ; Govt. Pr. , 1940-1966. – 27 v. ; 33 cm. – Former title: Tasmania. Department of Lands and Surveys. Report of the Secretary for Lands for the year – Contains reports on surveying and land use.

Surveyor-General and Secretary for Lands report for the year – [Hobart, Tas.] : Govt. Pr. , 1967-1971. – v. ; 33 cm. – Also issued as a parliamentary paper. – Former title: Tasmania. Department of Lands and Surveys. Report of the Surveyor-General and Secretary for Lands for the year – Later title: Tasmania. Lands Department . Report on the activities of the Department of Lands for the year. – Contains details of surveying and land use.

Tasmania index map 1 inch to 1 mile map sheets. – [Hobart, Tas. : Department of Lands and Surveys, 1954]. – 1 map ; 34 x 25 cm. – Shows projected sheet names and numbers. First sheet was produced in 1954. Series replaced by the 1:50 000 series after 1956.

Tasmania. Department of Lands, Parks and Wildlife. Mapping Division

Annual report / The Division. – Hobart, Tas. : The Division, 1987- 1988. – 2 v. : ill. ; 30 cm. – Former title: Tasmania. Lands Department. Mapping Division. Annual report. – Later title: Tasmania. Department of Environment and Planning. Mapping Division. Six monthly report. – Report on activities and map produced.

Six monthly report / Mapping Division, Department of Lands, Parks and Wildlife. – Frequency semi-annual. Alternate title: Tasmania. Department of Environment and Planning. Mapping Division. Production report.

Tasmania. Department of Primary Industries, Water and Environment. Information and Land Services

Tasmania mapping activities progress / Department of Primary Industries, Water and Environment. Information and Land Services. – [Hobart, Tas.] : TASMAR, 2002. – 4 maps on 1 sheet showing the 1:100 000 topographic series, 1:25 000 mapping programme, the land tenure index series and recreational mapping.

Tasmania. Lands Department

Application of the stereocomparator to mapping observations in Tasmania / Lands and Surveys Department, Tasmania. – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 187-188 : 2 figs. – E/CONF.52/L.31.

Tasmania. Lands Department. Mapping Division

Annual report / Mapping Division. – Hobart, Tas. : Mapping Division, 1985/1986 - . – v. – Title varies: Progress report : annual report. – Continued by Annual report (Tasmania. Department of Lands, Parks and Wildlife. Mapping Division). – A quarterly and semi-annual report are also published by the Department.

see also Love, A. R.

Tasmania. Land Information Bureau

Production report / Tasmania, Environment and Planning, Land Information Bureau. – [Hobart, Tas.] : The Bureau, 1992- . – v. : col maps (fold.) ; 30 cm. – Semi-annual. – Report on mapping.

Tasmania. National Parks and Wildlife Service

Report for the year ended 30 June ... / National Parks and Wildlife Service. – Hobart, Tas. : The Department 1979–1987. -- Merged with Annual report of the Lands Department to become the Annual report / Department of Lands, Parks and Wildlife.

Tasmania. Parliament. Standing Committee of the Co-ordination and Correlation of Levels and Surveys in Tasmania

Report and proceedings of the Standing Committee of the Co-ordination and Correlation of Levels and Surveys in Tasmania. – [Hobart, Tas.] : H. H. Pimblett, Govt. Pr., 1941. – 22 p. : ill. ; 25 cm. – Surveying matters.

Tasmania see also Johnston, F. M.

Taylor, Neil

Development of a national small scale cartographic data base / Major Neil Taylor, Royal Australian Survey Corps. – *In* Technical Papers, Australian Cartographic Conference (8th : 1990 : Darwin), 145-151. – 4 refs. – Provides a general background to the development. Since 1975 will provide considerable savings in production of air charts.

Thompson, J. A.

Promotion of surveying and mapping to government : report / J. A. Thompson. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1984, 32, 2, 148-150.

Thomson, W. A.

Preliminary detail plots of Papua New Guinea / W. A. Thomson, Division of National Mapping, Department of National Development . – *In* Proceedings and Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2, 194-195 : 1 fig., 1 col. map. – E/CONF.52/L.55.

Thomson, W. A. and Madden, J. D.

1:100 000 mapping program and ground truth / W. A. Thomson and J. D. Madden., Division of National Mapping. – *In* Technical Papers, Australian Survey Congress (21st : 1978 : Adelaide), Paper 11, 103-110 : 3 figs. – 3 refs. – Discusses the philosophy of ground truth and how field inspection and accuracy testing are used to verify quality of maps. Describes the method of map completion technique developed by the Division of National Mapping.

Thorogood, F. E.

The Royal Australian Survey Corps / F. E. Thorogood. -- *In* The Globe: journal of the Australian Map Circle, Inc. (Melbourne: c/o Department of Geography, Univ. of Melbourne), 1978, 10, 3-6 : 1 table. – Functions and organisational structure.

Tresize, Paul H. and Hutchinson, Michael F.

The development of a national digital elevation model / Paul Tresize and Michael F. Hutchinson, Division of National Mapping. -- *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), Session 6, [23-30]. – 7 refs. -- The paper provides an overview of the Division of National Mapping's DEM, including descriptions of the adopted gridding algorithm and methods used for verifying the fidelity of the gridded model.

Trinder, J. C. and Wise, P. J.

Assessment of SIR.B for topographic mapping / J. C. Trinder and P. J. Wise, -- *In* Photogrammetric Engineering and Remote Sensing (Sydney: Univ. of New South Wales), 1987, 52, 11, 1539-1549.

Tucker, K. J.

Mapping change in the New South Wales Department of Lands / K. J. Tucker. -- *In* Cartography (Canberra: Australian Institute of Cartographers), Sept. 1984, 13, 4, 295-305 : ill., maps.

Turner, L.G.

Aerodist operations in Australia / L. G. Turner. – *In* Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (5th : 1967 : Canberra), v. 2. – E/CONF.52/L.44.

Mapping Australia's continental shelf / L. G. Turner. – *In* Technical Papers, Australian Survey Congress (17th : 1974 : Melbourne), 128-135 : 5 figs.

Turner, L.G. and Mitchell, H. L.

Satellite imagery and its application to offshore mapping in Australia / L. G. Turner and H. L. Mitchell, Division of National Mapping. -- *In* Technical Papers, Australian Survey Congress (20th : 1977 : Darwin), Paper 8. -- Description of use of Landsat satellite imagery and aerial photography for bathymetric mapping.

Tyson, B. T.

The topographical map series of Australia / B. T. Tyson. – B. T. Tyson, Department of Town & Regional Planning, University of Melbourne, 1965. – [ii], 53 p. [6 p.] : 25 plates (chiefly maps). – Covers the period from 1917–1965. – Includes six Appendices of which four are work flow charts on specific series. Describes the development of national mapping, a description of the current series and an evaluation of the series. -- A limited edition of 125 copies.

Urban, Frank

Central Mapping Authority and mapping in New South Wales / Frank Urban. – *In* Azimuth (Bathurst, N. S. W. : Institution of Surveyors, Australia. New South Wales Division), June 1983, 4-6,10. – Address to N.S.W. Division of the Institution of Surveyors, Central Western Group on history of the CMA, government reviews and brief reference to topographic mapping program.

Current and future trends in mapping at the Central Mapping Authority of New South Wales / Frank Urban. – *In* Australian Journal of Geodesy, Photogrammetry and Surveying (Sydney: University of New South Wales), June 1984, 40, 84-90.

Large scale mapping in New South Wales / by Frank Urban, Chief Photogrammetist, Central Mapping Authority, New South Wales. – *In* Technical Papers, Australian Survey Congress (16th : 1973 : Canberra), E1-E4 : 7 figs., 3 tables. – Describes commencement of CMA operations in 1951 to produce medium scale multi coloured topocadastral maps of New South Wales. – Also appears in Technical Papers, United Nations Regional Cartographic Conference for Asia and the Far East (7th : 1973 : Tokyo), v. 2, 320-329 : 7 figs., 3 tables. – E/CONF. 62/L.41.

Vance, T. A.

Mapping a continent / T. A. Vance [Officer Commanding, Survey Section R. A. E.]. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Sept. 1940, 8, 3, 148-156. – Early history of the Survey Section, Royal Australian Engineers (later the Royal Australian Survey Corps) and its work, including some specifications for mapping.

The present methods of the Australian Survey Corps / T. A. Vance. -- *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), Mar. 1938, 7, 1, 54-64. – Describes present mapping methods used by the Corps.

Veenstra, Con

Cartography in Australia / by Con Veenstra. – *In* Cartography (Canberra: Australian Institute of Cartographers), March 1985, 14, 1, 24-26. – Speech to ICA delegates at 12th ICA Conference, August 1984, Perth.

Expedition to the Australian Territory of Heard and McDonald Islands 1980 / by C. Veenstra, J. Manning and other members of the expedition. – Canberra, A.C.T. : Department of National Development and Energy, Division of National Mapping, 1982. – 69, [41] p. : ill., maps, facsim. ; 30 cm. – (Technical report / Australia. Department of National Development & Energy, Division of National Mapping) ; 31. – Includes details of surveys and map prepared. -- Bibliogs. -- ISBN 0 642 51523 9.

see also **Allman, J. S. and Veenstra, C.**

Veenstra, C., Gray, D. and Dovey, S.

Remote sensing and digital mapping / by C. Veenstra, Division of National Mapping, D. Gray, Director, Landsat Station and S. Dovey, Applications Specialist, Landsat Station. – *In* Technical Papers, Australian Survey Congress (27th : 1985 : Alice Springs), 99-106. – Discusses potential use of current systems (Landsat 1-3) and some of the high resolution non-photographic systems to the Division of National Mapping.

Vial, A. J.

An aerial photogrammetric survey operation / A. J. Vial, Officer in Charge, Aerial Survey Unit, Department of Lands, South Australia. -- *In* Cartography (Canberra: Australian Institute of Cartographers), 1959-60, 3, 2, 59-71 : 10 fig. – Description of procedures used.

A brief history of the Aerial Survey Unit, Department of Lands, South Australia / A. J. Vial. -- *In* Cartography (Canberra: Australian Institute of Cartographers), March 1960, 3, 3, 165-171 : 6 fig.

Viccars, Jack S.

History of New Guinea Survey Section later 8 Australian Field Survey Section / by Jack S. Viccars. – Canberra, [A.C.T. : J. S. Viccars, [1988?]. – ii, 43, [12] p., [9] p. of plates (2 folded) : ill., maps, portr. ; 26 cm. – Short history of activities during World War 1939-1945 in Papua New Guinea. – ISBN 0 731 64021 7 (not printed in book)

Victoria. Department of Crown Lands and Survey

- Enquiry into present and future requirements of topographic maps : report / Department of Crown Lands and Survey. – [Melbourne, Vic.] : The Department, 1970. – v. (unpaged) ; 30 cm.
- Half yearly report on survey and mapping activities / Division of Survey and Mapping, Department of Crown Lands and Survey. – [Melbourne, Vic.] : Division of Survey and Mapping, 1978-1979. – v. : maps ; 30 cm. – July/Dec. -- Half-yearly. -- Cover title in 1978: Interim report to the National Mapping Council.
- The history, functions and organization of the Department of Crown Lands and Survey, Victoria. -- [Melbourne, Vic.] : The Department, [n.d.]. – 15 p. : ill. ; 30 cm. – The first ten pages refer to the surveying , mapping , and aerial photography functions.
- Maplist : catalogue of Victorian maps, September, 1982 / compiled by the Division of Survey and Mapping, Department of Crown Lands and Survey. – Melbourne, Vic. : Division of Survey and Mapping, [1986]. – 1 col. fold. broadsheet : col. maps ; 23 cm. – Contains index maps to topographic map series at scales from 1:250 000 to 1:2 500. Index to aerial photography at medium scales.
- Mapping and aerial photography catalogue, Department of Crown Lands and Survey, Division of Survey and Mapping / Division of Survey and Mapping. -- Melbourne, [Vic.] : Govt. Printer, 1974. – 39 p. : maps (2 fold.) ; 30 cm. – Maps of Victoria by state and national agencies available from Victorian Division of Survey and Mapping. Includes topographic series at scales ranging from 1:1 000 000 to 1:25 000.
- Mapping and aerial photography catalogue, Department of Crown Lands and Survey, Division of Survey and Mapping / Division of Survey and Mapping. – 2nd. ed. -- Melbourne, [Vic.] : Govt. Printer, 1974. – 40 p. : maps (2 fold.) ; 30 cm. – Maps of Victoria available from Victorian Department of Crown Lands and Survey, Division of Survey and Mapping.
- Mapping in Victoria : report and proposal for an accelerated programme Division of Survey and mapping, Department of Crown Lands and Survey / Division of Survey and Mapping. – [Melbourne, Vic.] : The Department, 1982. – v. (various pagings) : maps ; 30 cm.
- Mapping in Victoria : report and proposal for an expanded programme Division of Survey and Mapping, Department of Crown Lands and Survey. – v. (various pagings) : ill. ; 30 cm.
- Official map and plan systems for use throughout Victoria Division of Survey and Mapping, Department of Crown Lands and Survey, Victoria / Division of Survey and Mapping. – 3rd. ed. -- Melbourne, [Vic.] : Govt. Printer, 1978. – 9 leaves, [2] leaves of fold. maps : ill. ; 30 cm.
- Quarterly report as at ... / Division of Survey and Mapping, Department of Crown Lands and Survey. – Melbourne, Vic. : Division of Survey and Mapping, 1974-1989. – v. ; 30 cm. – Former title: Victoria. Department of Crown Lands and Survey. Quarterly report as at – Later title: Victoria. Survey & Mapping Victoria. Report as at
- Report on state mapping requirements and current programme in Victoria Department of Crown Lands and Survey, Division of Survey and Mapping / Division of Survey and Mapping. – Melbourne, [Vic.] : The Department, 1974. – 16 leaves, [3] leaves of col. plates : maps ; 30 cm.

Victoria. Department of Natural Resources and Environment

- VICMAP topographic map index as at August 1996 / [compiled by] Office of Geographic Data Co-ordination. – Melbourne, Vic. : Geographic Data Co-ordination, Department of Natural Resources and Environment, 1996. – 1 col. fold. broadsheet : col. map ; 23 cm. – Shows 1:50 000 and 1:25 000 topographic map series. – Another issue for 1997.

Victoria. Department of Property and Services. Survey and Mapping Victoria

- Department of Property and Services, Division of Survey and Mapping : corporate plan 1987-88 / Division of Survey and Mapping. – Melbourne, [Vic.] : The Division, 1986?. – 12p. ; 25 cm.
- Maplist : catalogue of Victorian maps, plans and aerial photography, October 1986 / Division of Survey and Mapping, Department of Property and Services. – Melbourne, Vic. : Division of Survey and Mapping – v. (loose leaf) 1[p.], 9[p.] : ill., chiefly col. maps ; 30 cm. – Contains index maps to the 1:250 000, 1:100 000, 1:63 360, 1:50 000. 1:31 680 and 1:25 000 topographic map series.
- Report and recommendation for continuation of the accelerated mapping programme / R.E. Holmes. – Melbourne, [Vic.] : Division of Survey and Mapping, Department of Property and Services, 1985. – v. (various pagings) : maps ; 30 cm.
- Review of Survey and Mapping service, stage 1 : report of Working Party, J. Mant, Review Working Party. – Melbourne, Vic. : Department of Property and Services, Division of Survey and Mapping, 1985. – v. (various paging) ; 30 cm.
- VICMAP mapsheet index / Survey and Mapping Victoria. – Melbourne, Vic. : Survey and Mapping Victoria, Department of Property and Services, 1990. – 1 col. fold. broadsheet : col. map ; 24 cm. – Contains index to the 1:25 000 and 1:50 000 scale topographic map series.

Victoria. Division of Survey and Mapping.

- Annual report ... to the National Mapping Council of Australia / Division of Survey and Mapping. – Melbourne, Vic. : Division of Survey and Mapping, 1975-87. – v. ; 30 cm. – Part 1. Progress of surveys within Victoria. Part 2. Place names.
- Discover Victoria with VICMAP 1:25 000 / Division of Survey and Mapping. – Melbourne, Vic. : The Division, 1988. – 7 maps ; 30 cm. – Indexes to the 1:25 000 scale topographic series .
- Division of Survey and Mapping. Survey, Mapping and Draughting Party : report. – Melbourne, [Vic.] : The Division, 1985. – 15, [11] leaves ; 30 cm.
- Mapping and aerial photography catalogue Department of Crown Lands and Survey, Division of Survey and Mapping / Division of Survey and Mapping. -- Melbourne, [Vic.] : Govt. Printer, 1974. – 39 p. : maps (2 fold.) ; 30 cm. – Maps of Victoria by state and national agencies available from Victorian Division of Survey and Mapping. Includes topographic series at scales ranging from 1:1 000 000 to 1:25 000.
- Report as at ... Survey and Mapping Victoria, Ministry of Finance / Survey and Mapping, Victoria. – Melbourne, Vic. : The Ministry, 1991. – v. : ill. ; 30 cm.
- Review of survey and mapping service discussion papers / Victoria Division of Survey and Mapping. – Melbourne, [Vic.] : Titles Office, [198-?]. – v. (various pagings) ; 30 cm.
- Review of survey and mapping service stage 1 : issues paper, June 1985 Review Working Party, J. Mant / Division of Survey and Mapping, Review Working Party. – [Melbourne, Vic.] : Department of Property and Services, Division of Survey and Mapping, 1985. – 122 leaves : maps ; 30 cm.

Walter, C. K.

- Field use of the tellurometer / C. K. Walter, Division of National Mapping. -- *In Cartography* (Canberra: Australian Institute of Cartographers), 1959-60, 3, 1, 17-25 : 1 ill., 2 figs. – 4 refs. – Recounts experiences of the first survey party to operate a tellurometer in Australia.

Warnest, Gary

- The Royal Australian Survey Corps / Gary Warnest. -- *In Cartography* (Canberra: Australian Institute of Cartographers), June 1995, 24, 1: Supplement (July 1995), 34-38. – 5 p. : ill.

Waterford, Jack

- Bureaucrats indulge in a power play to control mapping facilities / Jack Waterford. -- *In Canberra Times*, 1986, 17 Aug., p. 2 : ill. – Details regarding politicising of mapping activities carried out by Division of National Mapping and the Royal Australian Survey Corps. Other federal agencies mentioned are the Australian Survey Office, Australian Land Information Council and the National Mapping Council of Australia.
- Mapping Australia well off bearing / Jack Waterford. – *In Canberra Times*, 1986, 3 Aug., p. 2 – Call for more co-ordination by two Commonwealth agencies engaged in the mapping of Australia.

Watson, Christopher

- Australian Antarctic surveying and mapping / Christopher Watson. – *In Technical Papers*, Australian Survey Congress (39th : 1997 : Launceston), 23-30 : 1 fig. – 6 refs. – Brief summary of the history of surveying and mapping activities. Principal components of current Australian National Antarctic Research Expedition's mapping and geographical information program are discussed.

Western Australia. Department of Land Administration

- Annual report / Department of Land Administration. – Perth, W.A. : The Department, [1988]- . --

Western Australia. Department of Land Administration. Central Map Agency

- Catalogue / Central Map Agency. – [Perth, W.A.] : Department of Land Administration, [1993-]. – v. [loose leaf] . – Contains photocopies of map indexes and map lists from various agencies. Includes a section of topographic map indexes.

Western Australia. Department of Lands and Surveys

- Annual report for the year ended ... together with a report under the Farmers' Debts Adjustment Act / Department of Lands and Survey. – Perth, [W.A.] : Department of Lands and Surveys, [19--]-1986. – v ; 30 cm. – Description based on 1934. – Later title: Western Australia. Department of Land Administration. Annual report 1031-4636. – ISSN 1031-4628.
- Orthophotomapping: a digital comparison / Western Australia, Department of Lands and Surveys. – *In Proceedings and Technical Papers*, United Nations Regional Cartographic Conference for Asia and the Pacific (9th : 1980 : Wellington), v. 2, 113-119 : 2 figs. –6 refs. – Orthophotography a support of

- digital mapping procedure. To be effective the needs of the users must be understood, while users need to adapt to change by accepting the new format. – E/CONF. 72/L.42.
- Western Australia – pictorial index of surveying and mapping. – Perth, W.A. : Department of Lands and Surveys, 1966-1971. – Contains indices to both topographic and thematic mapping series.
- Western Australian topographic specifications all scales (WATSAS) ; covering scales 1:25 000 to under 1:5 million [draft]. -- [Perth, W.A. : Department of Lands and Surveys, 1982]. – [x], [381] p. : [8] p. of col. plates, 1 loose map. -- Includes 5 out of a proposed 11 parts. Prepared for the consideration of National Mapping Council members.
- see also Contemporary Cartography, Fyfe, W. V., Johnston, D., Lyons, K. J. and Morgan, John F.**

Western Australia. Department of Lands & Surveys. Central Map Agency

Catalogue of maps and services / Central Map Agency. – Perth : Department of Lands and Surveys, [1985]. -- Biannual. – v. [loose leaf ; 52 leaves]. – [42] : 1 of col. ill. ; 29 cm. -- Illustrating map types available from various agencies with accompanying bibliographic descriptions. Includes some topographic mapping.

Williams, R. J.

- Army Survey topographic information system : an information structuring approach / R. J. Williams. -- *In* Technical Papers, Australian Cartographic Conference (6th : 1986 : Melbourne), Session 3, [8-15] : 7 figs. – Describes requirements for a range of products from the information system and the two stages of achieving this.
- Contemporary Cartography. Procedures for rapid-reponse mapping using existing compilation material / R. J. Williams. – *In* Cartography (Canberra: Australian Institute of Cartographers), March 1982, 12, 3, 156-160 : 4 pages of col. maps, 2 tables. – 2 refs. – Describes mapping procedures employed by the Royal Australian Survey Corps which do not compromise accuracy standards.
- The Royal Australian Survey Corps / by Robert Williams. – *In* Cartography (Canberra: Australian Institute of Cartographers), Mar. 1987, 16, 2, Supplement (Aug.1987), 29. – Part of Australian Institute of Cartographers report to the International Cartographic Association.
- The Royal Australian Survey Corps (1987-1990) / by R. J. Williams. – *In* Cartography (Canberra: Australian Institute of Cartographers), June 1991, 20, 1, Supplement (July1991), 43-46. – Part of Australian Institute of Cartographers report to the International Cartographic Association.

Wilsdon, W. J.

- Report of an investigation into the establishment of a Central Mapping Registry in South Australia / W. J. Wilsdon. – [Adelaide, S.A.] : Survey Division, Department of Lands, 1982. – 42 p., [7] leaves (some folded) ; 30 cm. – (Research and development programme report (South Australia. Department of Lands, Survey Division)) ; 2.
- Topographic map revision in Australia – a rationale for “Hard Times” / W. John Wilsdon, Department of Lands, South Australia. -- *In* Technical Papers, International Cartographic Association Conference (12th : Aug. 1984 : Perth, Australia), 2, 47-63 : 8 figs. (5 col.) -- 2 refs. – Bibliogr.: p. 59-63. -- A two part paper. The first part is a report of the Australian Institute of Cartographers Working Group on Map Revision. In the second part the author considers how the magnitude of the revision process might be contained in more manageable limits.

Wise, P. J.

- Contemporary Cartography. The genesis of AUSLIG's Canberra 1:100 000 scale satellite image map / P. J. Wise. – *In* Cartography (Canberra: Australian Institute of Cartographers), Dec. 1992, 21, 2, 9-13: 1 col. map. – 5 refs. – Describes procedures employed by Australian Surveying and Land Information Group, using high resolution satellite remotely sensed data to produce topographic maps.
- Laser terrain profiling / P. J. Wise. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development & Energy, 1979. -- iii, 13 p. : 1 fig., 3 ill., 2 diags., 1 map. – (Technical report / Department of National Development & Energy, Division of National Mapping) ; 26. – Discusses equipment and supplies used in remote sensing. -- ISBN 0642514518.

Witzand, J. , Langhorne, P. H. and Ford, R.A.

- Helicopter borne traversing for mapping control, April – November 1968 / J.Witzrand, P. H. Langhorne and R. A. Ford. – Canberra, [A.C.T.] : Division of National Mapping, Department of National Development, 1970. -- 29 p. : 6 ill., 8 figs. – (Technical report / Department of National Development, Division of National Mapping) ; 9. – Large areas of Western Australia surveyed by helicopter tellurometer survey.

Wood, Malcolm

Integration of the former Australian Survey Office and Division of National Mapping within the Surveying and Land Information Group of the Department of Administrative Services : review team report M. Wood, W. Lamond, P. O'Donnell. – [Canberra, A.C. T. : Department of Administrative Services], 1987. – 53, [40] p. : ill. ; 30 cm. – ISBN 0 642 14812 0 (not printed on item)

Wood, P. H.

Topographic mapping of Western Australia from the defence aspect / P. H. Wood. – *In* International Conference on Indian Ocean Studies (2nd : 1984 : Perth), Section F, 1-19 : maps. – Bibliog.

Wrigley, Alan K.

The defence force and the community : a partnership in Australia's defence : a report to the Minister for Defence / Alan K. Wrigley. – Canberra, [A.C.T.] : Australian Government Publishing Service, 1990. – xv, 602p. : ill. ; 25 cm. -- A report commissioned by the Minister of Defence. Concerned with rationalisation, efficiency and cost effectiveness of mapping and charting at the federal level. Recommends there is no longer any justification for a specific Army Survey Corps and mapping functions should be transferred to a civilian infrastructure. – Notes and refs. pp. 581-602. – AGPS cat. No. 9014822. – ISBN 0 644 12826 1.

Young, Christina

National topographic map series completed / Christina Young, Department of Administrative Services. – *In* Australian Surveyor (Sydney: Institution of Surveyors, Australia), June 1989, 34, 6, 640-643 : 3 ill. – Gives a brief summary of the production of the 1:100 000 topographic map series.

September 18th, 2003.
