Australian and New Zealand Map Society

September 2010

ISSN 1837- 3372

<http://www.anzmaps.org/>

Newsletter of the Australian & New Zealand Map Society (ANZMapS), published irregularly by The Australian & New Zealand Map Society, Incorporated (Melbourne, Victoria). Issue # 108, September 2010.

In this issue:

Southern Latitudes: 39th Annual Conference of the Australian and New Zealand Map Society/Dorothy Prescott Prize/Patricia Alonzo Prize/New members/Payment of subs by New Zealand members/Map curators and librarians toolbox/ANZMapS Wikipedia webpage/News from the National Library of Australia/News from the State Library of New South Wales/News from the Alexander Turnbull Library at the National Library of New Zealand/GeoCart 2010/ In passing/Coming events and items of interest

Southern Latitudes: 39th Annual Conference of the Australian and New Zealand Map Society

To be held at the State Library of New South Wales, Sydney, Australia, 24 – 27 May 2011

Invitation to participate and call for papers

The conference committee invites proposals for papers.

Each presenter will be allotted approximately 30 minutes.

Proposals should include a short abstract, affiliation details, brief biography, and the type of presentation facilities you require and contact details. Please submit proposals for papers by 8 January 2011 to mpatton@sl.nsw.gov.au

Conference theme and program

Papers related to any aspect of the exploration, naming, mapping or marine charting of Australia, New Zealand or of the Asia Pacific, historic or contemporary, are welcome. Suggested themes may include the mapping of Australia and New Zealand, the impact of global warming and environmental change on coastlines and island communities, contemporary approaches to hydrographic surveying and cartography.

The conference will also acknowledge the 200th anniversary of the publication of the first complete map of Australia by cartographer, Louis de Freycinet in 1811.

Featured speakers include Sydney Map Collector, Robert Clancy, Adjunct Associate Professor Vivian Forbes, University of Western Australia and John Robson, University of Waikato.

The conference will also feature:

- An exhibition on the Baudin exhibition focussing on Freycinet's *Carte Générale de la Nouvelle Hollande*, 1811
- Workshops on 'Digital map overlays for dummies', and Cartographic conservation methods.
- Behind the scenes tours of the Mitchell Library, State Library of New South Wales.
- *Paul Brunton, Senior Curator, Mitchell Library, as the after dinner speaker at the Conference Dinner on Thursday evening.*

A map collection management workshop for curators and librarians will also be held on Friday 27 May.

Audience

ANZMapS, the Australian and New Zealand Map Society, promotes all aspects of cartography to a wide range of potential users. It is dedicated to exploring and developing the world of maps. Our membership includes map producers, curators, librarians, GIS specialists, academics, researchers, and anyone with an interest in maps.

The Dorothy Prescott Prize

This prize will be awarded to the author presenting the best conference paper, as judged by a panel appointed by the ANZMapS President. Dorothy Prescott (OAM) is an Honorary Fellow at the Department of Resource Management and Geography, University of Melbourne, and received the Order of Australia in June 2003 for services to map librarianship and cartobibliography. The prize consists of \$500.00 and a certificate awarded to the author.

Registration and Accommodation

An official website and registration brochure including costs and provisional program is under development. Suggestions for a range of accommodation facilities will be provided.

Key dates

Proposals for papers close: 8 January 2011

Close of early bird discount: Mid March 2011

Conference commences: May 24 2011 *Maggie Patton*, Conference Convenor, mpatton@sl.nsw.gov.au

Dorothy Prescott Prize

ANZMapS is pleased to announce an increase in the amount of the Dorothy Prescott Prize for the best paper presented at the ANZMapS Annual Conference to \$500. The Dorothy Prescott Prize was established in 2010 and will be awarded to the author presenting the best paper, as judged by a panel appointed by the ANZMapS President.

Dorothy Prescott (OAM) is an Honorary Fellow at the School of Social and Environmental Enquiry, University of Melbourne, and received the Order of Australia in June 2003 for services to map librarianship and carto bibliography. She is a Member of the Australian Institute of Cartographers (MAIC), and was Eminent Spatial Scientist of the Year, awarded by the Spatial Sciences Institute (Victorian Division), 2004.

The prize consists of \$500.00 and a certificate awarded to the author. The prize money will be sent to the winner once the winning paper:

- is submitted for publication to *The Globe* Editorial Committee,
- is corrected or amended by the winner as required by the editorial referees, and
- is accepted for publication in *The Globe* by the Editorial Committee.

The Dorothy Prescott Prize supersedes the Estelle Canning Memorial Prize, endowed by Victor and Dorothy Prescott, in memory of the Australian Map Circle's Vice-President 1997-98, who passed away on 20 September 1999. The final Estelle Canning Memorial Prize was awarded in 2009.

Mac Benoy was awarded the inaugural Dorothy Prescott prize at the 2010 ANZMapS conference for his paper on the Todd Weather-map Digitisation Project.

Amy Griffin, Business manager, ANZMapS

Patricia Alonzo Prize

The Annual Student Dinner for RMIT University Geospatial Science was held on Thursday 26 August 2010. There was a large attendance of students and staff, plus representatives of numerous authorities and businesses associated with the surveying, cartographic and allied professions. This was a happy occasion: good food, good company, and the presentation of well-deserved prizes.

The Patricia Alonzo Memorial Prize for the best final year results in the Bachelor of Applied Science (Multimedia Cartography) degree was awarded to **Mr Richard Syme**. Since graduating at the end of last year, Richard has been employed by Aurecon as a Geospatial Analyst

Greg Eccleston

Greg Eccleston with Richard Syme, 26th August 2010

New Members

A warm welcome to our newest ANZMapS member

Toni Houghton, Library Manager, Archives New Zealand Library, Wellington

Payment of subscription by NZ members

After some investigation and extensive discussion, the Executive has determined that it is not financially sensible to continue the operation of accounts in both NZ and Australia or to have a NZ sub-account of the society's main transaction facility. Therefore we propose that from 2011, direct deposit to a NZ account will no longer be offered as a method for paying annual subscriptions to the society. We hope that NZ members would be able to pay using a credit card or Visa/MC debit card. If there is anyone for whom this would present a significant difficulty, please contact the business manager.

Amy Griffin, Business Manager, ANZMapS

Map curators and librarians toolbox

A new area of the ANZMapS website offering information for cataloguing, care, training and other map-related requirements was suggested by those attending the ANZMapS conference in Adelaide, and has now been launched: <http://www.anzmaps.org/toolbox-3/>

Our "disclaimer" is that the Toolbox area is new and under development, so your suggestions are welcome. In fact the Toolbox's improvements will be reliant on your input. Please make suggestions through the Yahoo list or via the new "Email site feedback" link on the ANZMapS website front page, which fires us an email we can't ignore! (and if you have any problems with the link, the email address is maps@nla.gov.au<<mailto:maps@nla.gov.au>>)

The page lists and provides links to resources:

Cataloguing tools

(Links to sources for Place names, Cataloguing standards, scale/coordinates tools, spatial data structure and standards)

Cartography related courses

(Current Australian and New Zealand TAFE and university courses with significant cartography elements)

Map suppliers

(Government mapping services, commercial publishers, and antiquarian map dealers)

Collection care and management

(Collection development polices, conservation of maps etc cataloguing List)

**Please Note under 'Map Suppliers', in addition to links to IMCOS, IMTA etc, the ANZMapS Committee consider that there is scope for Members who are vendors or publishers to be listed, so would welcome your interest. Please contact the Secretary, Karen Craw, karen.craw@otago.ac.nz<<mailto:karen.craw@otago.ac.nz>>

ANZMAPS Wikipedia page

Check out our very own Wikipedia webpage!

http://en.wikipedia.org/wiki/Australian_and_New_Zealand_Map_Society

Thanks to Brendan Whyte for setting up the webpage.

News from the National Library of Australia

The National Library acquired a number of important cartographic collections and items during the last financial year. In late 2009 and early 2010 we received the large archival collection of the late Mr Jim Bowden, for many years associated with Universal Business Directories and IMTA. In 2002 Jim published *Getting there from here: a history of commercial mapping in Australia 1788 - 2000*. The collection is yet to be processed, but promises much. The collection has also been the beneficiary of the closure of the map library of the ANU's Fenner School, and in January 2010 Maps took a large consignment of maps which includes early topographic series maps for all Australian states. This fills some gaps in our holdings, including some scarce Canberra and region mapping, and a variety of Asian and world series maps not held.

The addition of Dr Brendan Whyte to the NLA Maps team last year has proved very beneficial to current map acquisition. Brendan's connections within the map trade, and particularly Asian cartographic sources, have benefited the collection markedly. Among more recent acquisitions, a significant consignment of new Indonesian topographic maps, and recent topographic mapping in series for Laos and Cambodia, including detailed maps of major cities. As mentioned on the list earlier this year, the NLA has also obtained copies of the Soviet military city plans of several Australian cities.

Several items of high historical significance were acquired, including *A New and Correct Mapp of the World, According to Mr Edward Wright, London, 1711*, published by Samuel Thornton. The map is an update of Thornton's 1700 world map, also held by the Library. This edition is one of the first known world maps to attach an estimate of the eastern extent of Australia's land mass to the traditional map of New Holland. Last year the Library acquired an 1838 edition of John Arrowsmith's *London atlas of universal geography*. The Australian and New Zealand plates are now scheduled for digitisation, as are all plates in the first (1729) edition of the recently acquired *Atlas Coelestis*, by John Flamsteed.

The Library has also over the past three years sourced many estate or sales plans, particularly for NSW south coast and Victorian subdivisions. During this time some 500 items have been acquired, dating from 1840s - 1920s which fill gaps among the large collection of plans provided the Library by former New South Wales Industrial Commission judge, Sir John Ferguson (1881-1969).

Most recently, Maps at the NLA acquired two items adding to its collection of early Australian atlases, namely Goyder's *Official atlas of South Australia including Northern Territory, 1885*, and the multi-part *Plan of the southern portion of the province of South Australia, 1877 [1878]*.

Martin Woods

Curator of Maps, National Library of Australia

News from the State Library of New South Wales

Update on the creation of online records.

Following the provision of special funding from the State Government, the Library has been steaming ahead with the conversion of our old card catalogues. Since the project commenced in 2008, over 10,000 map records have been created. Around 70% of these records are original with no other holdings on Libraries Australia. This figure doesn't include over 35,000 subdivision plans which will be accessible through contents lists in the future.

A small team is creating records from the shelf list cards. You can identify records created directly from the shelf list card by a statement in the notes field '*Information transferred from the Mitchell Library shelf list catalogue as part of the eRecords Project 2010-2011*'. If you identify any records with this message that don't quite add up

please let us know. We are relying on the accuracy and consistency of past cataloguing practices and past cataloguers! A small team is also creating online records with map in hand. This process is used for some of the more unique collections. At the moment this team is starting to work on the huge numbers of hidden maps contained in the Mitchell manuscript collections.

The creation of online records has led to an increase in use of maps from the collection and requests for images. Including a recent request for a *Rough plan shewing the farms at present occupied on the Acton Estate*, a manuscript map created in 1878 of an early NSW subdivision, now part of Canberra.

<http://library.sl.nsw.gov.au/record=b3012977~S2>

Rough plan shewing the farms at present occupied on the Acton Estate. Percy C. Hodgkinson, Licensed Surveyor. Digital Order No. a1528942. Call No. Z/M2 812.33/1878/1

Recent acquisitions

Carta particolare della costa austral scoperta dall' Olandesi, 1646, by Sir Robert Dudley. This is the first map by an Englishman to include the discoveries of Cartensz along the west coast of Cape York in 1623. The coast line is charted as far south as Statenrivier (Staten River).

Saunders' Official map of the Australian gold country, compiled from official records & information afforded by Mr E.H. Hargraves, the discoverer of the gold country, 1851. At 1 inch to a mile this map provides detail and notes on terrain in the counties of Wellington, Bathurst, and Roxburgh. This is a rare English edition printed in London in 1851 with no known holdings in Australia.

Maggie Patton

Head of Section, Maps, State Library of New South Wales

News from the Alexander Turnbull Library at the National Library of New Zealand

I was recently appointed Cartographic Curator at Alexander Turnbull Library, National Library of New Zealand. This is a half-time, temporary appointment until early 2011. Previously, I've had roles in collection development, acquisitions, reference services and cataloguing at the National Library of NZ and in university libraries. During my library studies at Victoria University, I focused on geographic information resources.

At the moment, the Cartographic Curator position is half-time because the majority of the collection is currently unavailable to the public until early 2012 while the National Library of New Zealand building is being refurbished. The current role focuses on acquisitions, collection management, including map digitisation, and on external reference enquiries via correspondence, online requests and phone inquiries.

Cartographic Collection, Alexander Turnbull Library

The public can still access parts of the Cartographic Collection. A large selection of early North Island, New Zealand paper maps are available at Archives NZ, in central Wellington. A selection of recent topographic, cadastral and hydrographic maps and information are available through the National Library of New Zealand lending collections and reference and reading room, also in central Wellington. Digitised manuscript maps can be searched for and viewed via Timeframes <<http://timeframes.natlib.govt.nz>>, which is an online database of heritage images from the Alexander Turnbull Library. At the moment, you can also search for and view around 700 digital images of some published maps <<http://tinyurl.com/2ey36eu>>. More will be added soon.

More information about the Alexander Turnbull Library Cartographic Collection can be found at <http://www.natlib.govt.nz/collections/a-z-of-all-collections/cartographic-collection>

National Library building refurbishment

The building urgently needed refurbishment to fix leaks in the Library's roof and podium, upgrade outdated systems and plant and provide storage for the collections to 2030. Click the following link for more information about the National Library of NZ building redevelopment <http://www.natlib.govt.nz/about-us/building>

Mark Bagnall

Cartographic Curator, Alexander Turnbull Library at the National Library of New Zealand

GeoCart 2010

GeoCart 2010, the fifth national cartography conference in New Zealand, was held in early September in Auckland (see the programme here:

http://www.cartography.org.nz/index.php?option=com_content&view=article&id=69&Itemid=93). The conference, organised by Igor Drecki of the University of Auckland, was also the first regional symposium of the International Cartography Association, whose current president is Australian Bill Cartwright from RMIT University in Melbourne. The GeoCart conference is held every second year, and is run under the auspices of the New Zealand Cartographic Society.

The event included a pre-conference workshop by Cynthia Brewer from Penn State University in the US on 'Map Design using ArcGIS' and three days of stimulating papers on a wide variety of aspects of cartography, ranging from

3D cartography to visualizing aspects of environmental quality to representations of ANZAC involvement in the Gallipoli campaign. Keynote speakers included representatives from government, academia and private industry, with a highlight being the speaker from LINZ, Colin MacDonald, who spoke about New Zealand's topographic mapping process and new directions in which his organisation is heading.

There was significant international representation at the meeting, with delegates from the USA, Australia, the UK, Belgium, the Czech Republic and Germany in attendance in addition to local delegates. The conference was well attended by government, private sector and academic participants from New Zealand. If you've been needing an excuse to visit Auckland, the next GeoCart conference provides a good one!

Amy Griffin, Business manager, ANZMapS

In passing

Bert Cornelius (Died 03/06/2010)

For those members from the earlier days of the Australian Map (Curators') Circle and associated with Macquarie University, Bert Cornelius passed away in June this year.

My memory is that Bert was one of the founding members of the Australian Map Curators' Circle in 1973.

After retiring from Macquarie, Bert led a private life and hasn't been back to the Library for many years. I last saw Bert at his home just before the last map conference held at Macquarie in 2003.

Phil Barton (4/12/1925 – 17/06/2010)

Phillip Lionel Barton died peacefully on 17th June 2010 at Elizabeth Memorial Hospital, in his 84th year.

Phillip Lionel Barton was born in Cleathorpes, Lincolnshire, England, in 1925. He spent the last year of his formal education studying navigation at the Nautical School in Grimsby. Phil served with the Royal Air Force from 1943 to 1952, and the Royal New Zealand Air Force from 1952 to 1965. Phil Joined the National Library Service (NZ) in 1965, and worked on Graham Bagnall's retrospective National Bibliography. He became Map Librarian at Alexander Turnbull Library in 1973, and held that position until August 1986, when he retired.

His mapping interests included Maori cartography, and mapping the Tararua Ranges, and had papers published on these topics. He contributed a chapter to volume 2 of the *History of Cartography* (University of Chicago Press) titled "Maori cartography and the European Encounter". Phil was a keen tramper, and his other interests included photography, radio, navigation and book collecting.

He acted as Secretary and President of the New Zealand Map Keepers Circle / NZ Map Society at various times and was a life member of the NZ Map Society. He was a regular attendee at the Society's seminars, and always had questions to ask all the speakers. He also served on the committee of the NZ Cartographic Society, and on the ARANZ Cartographic Archives Committee.

The last annual seminar of the NZ Map Society that Phil attended was in 2004. After that he lost touch with the NZ Map Society, and sadly suffered from memory loss in his later years.

A gathering of friends and colleagues to remember Phil will be held later this year; details will be advised in the Dominion Post closer to the time and on this online tribute page.

Obituaries for current and past Society friends and members will appear in *The Globe*, Journal of the ANZMapS.

Coming events and items of interest

RDA - ALIA seminar introducing changes to cataloguing practice

21 October 2010, at the National Library of Australia

Cataloguing is changing as never before. RDA (resource description & access) is moving cataloguing guidelines into the web services world; a world where standards are used to link software, databases and library tools. Discovery layers are becoming the normal front end to the library's resources whether digital or physical. These developments provide opportunities to gain additional value from investment in metadata but also require us to consider whether current metadata and metadata production processes are up to the task.

The seminar will highlight cataloguing changes and will demonstrate why it is such an exciting time to be a cataloguer. Keynote speaker is David Lindahl, Co-Executive Director of the eXtensible Catalog project. The eXtensible Catalog (<http://www.extensiblecatalog.org>) is open source, user-centred, next generation software for libraries. It comprises four software components that can be used independently or combined to provide an end-to-end discovery system. Other speakers include: Karen Stone and Monika Szunjeko who will look at the value of cataloguing in the discovery layer and in the web services world, and Kent Fitch who will challenge us to re-evaluate resource description. The seminar will also include a session devoted to lightning talks where cataloguers will describe exciting developments in their own local environments.

Draft programme <http://www.nla.gov.au/lis/stndrds/grps/acoc/acocseminar2010.html>

The seminar will be held on 21 October 2010, the day after the Libraries Australia Forum, at the National Library of Australia. Registrations will open on Monday 23rd August and close on 8th October. Fees are: ALIA member \$150.00; Non-ALIA member \$200.00; Student (ALIA member) \$90.00; Student (Non-member) \$120.00. The registration form can be found at:

http://www.nla.gov.au/lis/stndrds/grps/acoc/documents/acoc2010_registration.pdf

The Library and Information Association New Zealand (LIANZA) centennial conference [LIANZA Conference 2010](#)

The Library and Information Association New Zealand (LIANZA) centennial conference theme is 'At the Edge' - Te Matakaheru and it aims to celebrate many aspects of New Zealand librarianship at the Edge: history, innovation, space, integration and people. 28 November - 01 December 2010, Dunedin, New Zealand.

<http://www.lianza.org.nz/news-events/conferences/conference-2010>

MSIA 2011 Conference

A celebration of 100 years of national topographic mapping 1910-2010

Monday 28th and Tuesday 29th March.

University House, Australian National University, Canberra.

The conference program will comprise papers and activities that will tell the story of 100 years of national topographic mapping.

Registration details will be available towards the end of the year. Any inquiries can be directed to the Trevor Menzies, MSIA Heritage Program Manager and Conference Convener, trevor.menzies@hotmail.com or telephone (08) 8981 3413

24th International Conference on the History of Cartography

On behalf of the Organizing Committee of the ICHC 2011 we are delighted to invite you to the 24th International Conference on the History of Cartography that will be held from Sunday, July 10 to Friday, July 15, 2011 in Moscow, Russia.

The general theme of the Conference is "Multiculturalism in the History of Map Making".

The deadline for proposals is October 25, 2010.

Further information will be available on <http://www.ichc2011.ru>

Liudmila Zinchuk,

ICHC2011 Conference secretary

Significant International Geospatial Standards Meetings to be held in Australia

ISO/TC211 and OGC's Technical Meeting will be holding their meetings in Australia later this year (Sydney and Canberra in late November - early December). This is the first time for over 10 years these two organisations are meeting in the same location and it is also the first time an OGC Technical Committee will meet in Australia. Around 200 - 250 delegates from overseas are expected to attend both meetings.

Celebrating New Zealand Mapping

The New Zealand Cartographic Society's 40th anniversary function 'Celebrating New Zealand Mapping' will be held on Saturday 19 February 2011, James Cook Grand Chancellor Hotel (Level 16), 147 The Terrace, Wellington, from 4.00pm to midnight

Cost per person: \$50 (spouses, partners and friends are welcome to attend)

Programme: Consists of an afternoon 'Meet and Greet' function (cocktail refreshments provided, cash bar), followed by an evening dinner (two course buffet) with invited speakers. An informal get together will be held from 11.00am on Sunday 20 February (venue to be advised). Lunch is optional and at own cost.

Registration: This can be completed in two ways-

1. On-line at www.cartography.org.nz.

2. The registration form may also be printed from the web page and posted with a cheque to: The Treasurer, New Zealand Cartographic Society, 21 Danbury Drive, NORTH SHORE 0630, N.Z. Please cross cheques 'Not Transferable'.

'Celebrating New Zealand Mapping' will provide an opportunity to unite all those interested in New Zealand mapping circles - Government, commercial and academic.

Graeme Jupp, Committee member, New Zealand Cartographic Society, Inc

A new knowledge sharing website has been launched for the GIS Community.

[Wiki.GIS.com](http://www.wiki.gis.com) is a community-generated, GIS-centric encyclopaedia that serves as a repository for factual, unbiased GIS content.

Anyone who has any knowledge of GIS is encouraged to create an account and start sharing information and collaborating with the GIS community to expand upon the information that is already within the wiki.

ArcGIS software, cartography, mathematics, surveying, remote sensing, and many other topics are covered as well as biographies of famous figures in the field.

Fellowships for 2011 at the American Geographical Society Library

Applications deadline October 18, 2010

The American Geographical Society Library, University of Wisconsin-Milwaukee Libraries, welcomes applications for two short-term fellowship programs:

McColl Research Program fellowships. This is a short-term fellowship program available to individuals who wish to communicate their geographical research results to a broad, educated general audience. Awards of \$3,300 for four-week fellowships will be provided to support residencies for the purpose of conducting research that makes direct use of the Library, and results in publication in a mutually agreed outlet.

Helen and John S. Best Research Fellowships. Stipends of \$400 per week, for periods up to 4 weeks, will be awarded to help support residencies for the purpose of conducting research that makes direct use of the Library.

The AGS Library, the former research library and map collection of the American Geographical Society of New York, has strengths in geography, cartography and related historical topics. More information on the AGS Library is available at the website: <http://www4.uwm.edu/libraries/AGSL/index.cfm>

Applications must be received by October 18, 2010. All fellowships are tenable in 2011.

Fellowship information is available at the AGS Library website at:

<http://www.uwm.edu/Libraries/AGSL/fellowships.html>

or write, call or e-mail: AGS Library, P.O. Box 399, Milwaukee, WI 53201-0399
